Lufkin Foundry & Machine Company
Payroll Book 1
April 1902-March 1906

This index was composed in order to aid in the reading and research of this ledger book. Due to the style of early 20th century handwriting, there are instances where The History Center staff had difficulties deciphering the contents. These entries are marked with a question mark. In addition, since there were multiple authors, the spellings of some names were not always consistent. Where these instances occurred, alternate spellings will be included in brackets next to the assumed surname.

Note to researchers: The authors of these ledgers often sounded out names and may not have asked employees how to spell their names. When searching for a particular name, try multiple variations to make sure you haven't missed the person you are searching for.

The page numbers in this index refer to the page number in the original document, not the PDF page number.
