Its fun to fight when you know you're right and your heart is in it, too, tho the fray be long and the foe be strong and the comrades you have are few. It's fun to dare in the face of despair when the last lone chance seems gone, And to see hope rise in the angry skies like a promise of rosey dawn; For victory's sweet when it crowns defeat, and Its fun to fight when u kno ure rite & ure heart is in it, too.

He that will not reason is a bigot; he that cannot reason is a fool, and he that dares not reason is a slave. —Sir W. Drummond.

MEMORIAL DAY

June, 30.

THE SOLDIERS PRAYER.

Give Purity to OUR COURTS,
I ask in a SOLDIERS name;
Give JUSTICE to ALL,
And I WILL LIVE IN FAME.

At 9:30 a line was formed near Glenndale and under command of Major H. A. Mass, Brills Band leading, followed by Confederate and Union Veterans acting as escort of the Angelina Posts Color bearers and firing squad, then the Flag of Dixie:—by ye Ed. followd by un-uniformed members of the Post, marched into the Cemetary as planned.

The Band played and crowd sang;—
My County, "Tis of Thee"
Prayer:— Dr. E. W. Solomon,
"Americanism" Senator I. D, Fairchilds,
Poem:— Miss Delane Singleton,
Memorial Service, Firing Salute, & Taps.
Benediction;—Rev. J. R. Nutt,
There was a large number present.
Services were over by 11 o'clock.
Union Veterans in Parade:— W. P. Siddons, and T. J. Rodgers [illegible] V. M. Courtney, & W. A. Penry & ye Editor.

T'was even-tide, and being weary with the exersize of MEMORIAL DAY, I sat under my Vine as the shadows fell, wondering how our homage to their valor was received:—When, two old men clad in Grey and Blue emerged from the gloom and bade me arise and follow them.

We reached a high cliff, over-looking a great plain which was dotted with groups of tents, each group flying its banners, dating back to ancient days.

Said they, "This is VALHALLA: —where the warriors of all ages are judged and will have to abide thru eternity." Noticeing a large wide Avenue or Street:—On either side of which in rotation the same banners floated, my guides said, "Those on the right battled for Liberty with out Licence:—Justice with Mercy:—and Religeous Freedom, free from Bigotry and Malice:—While those on the left battled thru Averice, for Fame, & Power from Lust & Greed; are doomed to forever jointly suffer with, while they view the shambles of Sorrow, Hatred and Malice they made on earth."

And among them, I saw Cain, Alexander, The Ceasers, Charlemange and Napolean on the left:—with all the false teachers of the ages, who had knowingly led a trusting, ignorant people astray.

As I was viewing the majestic forms of William Tell and George Washington, a curtain parted before me:—and I stood in the presence of Lee and Grant, in Grey and Blue, The Stars & Bars and Stars & Stripes intertwined, who in unison said;—

"Tell the survivors of the 60's,—of 98:—and of 1917-18: That we are proud of the fruit of our loins, —That we highly appreciate their annual memorial:

But The MEMORIAL We Crave ABOVE

Above all others, is a country of Liberty and Justice; whose Courts, freed from shyster lawyers dispense to all their just rewards, whose preachers council righteousness with toleration and mercy:—whose teachers will teach that knowledge that does not serve and benefit others (all) is dangerous for all:—whose parents instill in their children the same respect for all women that they ask for theirs:-Then will our "Corn of Wheat" reached perfection;-And Americanism will Cover Gods Earth."

And I Awoke:—Knowing I Had Seen A Great Vision.

this product than all other crops combined. The man raising it often knows nothing about marketing it and is therefore wholly at the mercy of the man buying.

The facts are we lost thousands of dollars each year for lack of trained men. The young man or woman trained in the Cotton Classing Department of our institution, the Tyler Commercial College of Tyler, Texas is in a much better [illegible] many positions that are opening up or to protect his own interests as a grower, than one who has had no training, or a training by guess.

In four weeks time we can prepare you to save more this year than double the cost of your learning, or to take a good position with unlimited opportunity.

We have been asked, "How do you teach Cotton Classing so successfully?" Believing that the time has come when the South needs to know more about her leading product, when the farmer should know more about marketing the crop which he labors so earnestly to produce and which means meat and bread to his family, we have equipped our department so that the most efficient teaching possible may be done. Our teachers understand classing, stapling, buying and selling from a practical standpoint, and are expert in the training of stucents. The head of this department is constantly in touch with the Agricultural Department at Washington, D. C. and at Austin, Texas, from whom we get the Government Types; besides these we purchase in quantities of three to four thousand.

Friday evening May 26th. the Sweet-Potato growers organized a Potato-growers Association, in connection with the Texas Farm Bureau; with about 40 acres listed.

Interesting and sensible talks were made by J Bagwell, fieldman for the Farm Bureau, Mr. Gerald Fitz-Gerald. of Morrell, Sec. Hall of our Chamber of Commerce and Mr. Joe Dunn. About 40 farmers were present and gave very close attention to the speakers.

Nine henious crimes by negro brutes on white women, with swift punishment, in 2 months in Texas, should convince the south that the colonization of the race is the only solution; last winter the Misssissippi Senate, "practically a negro state in population." voted 32 for and 40 agaihst a resolution asking their representatives and senators in Africa from European powers to colonize the American negroes.

The sentiment is growing fast.

If the south makes a start, the north will quickly join; as they too realize the danger of race problem.

It is a ? of vital importance, especially to the poorer classes who will have no wealth or influence to over-ride public sentiment.

Judge Robert G. Street, from Galveston will occupy the bench in Beaumont on June 5th. when the ouster-suit against Sheriff Tom H. Garner, of Jefferson Co. "who is charged with being a klansman." goes on trial.

Calomel Good but Treacherous

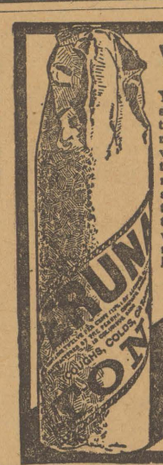

Next Dose may Salivate, Shock Liver or Attack Bones

You know what calomel is. It's mercury; quicksilver. Calomel is dangerous, It crashes into sour bile like dynamite. cramping and sickening you. Calomel attacks the bones and should never be put into your system.

If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a bottle of Dodson's Liver Tone for a few cents which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money.

Don't take calomel! It makes you sick the next day; it loses you a day's work. Dodson's Liver Tone straightens you right up and you feel great. No salts necessary. Give it to the children because it is perfectly harmless and can not salivate.

If He Had a Million.

Joe Brown was the porter at a little bank in southern Kansas. One spring day he rested on his broom and looked outdoors where nature beckoned him down to the river, where he might doze and wait for a catfish nibble on his line.

"Gee, boss," he declared fervently, "I'd like to have a million dollahs!"

"A million dollars, Joe?" the cashier said, smiling. "What would you do with a million dollars?"

A good roads bond issue of $500,000 was voted Saturday by good roads district No. 1 of commissioners precinct No. 3, Fort Bend county.

The De Witt County Poultry Association has been reorganized with an active list of members.

The state fire insurance commission has awarded the maximum good fire record credit of 15 per cent off the final rate to Rusk and Lyford on three-year loss ratios of .212 and .319, respectively.

The issue to raise the school taxes in Center was defeated in an election Saturday by a vote of 143 to 107.

The attorney general's department has approved a $150,000 bond issue of Robertson county road district No. 7, the bonds maturing in forty years and bearing 5 per cent interest.

According to W. R. Nesbit, county farm demonstration agent at Palestine, 150 acres in sweet potatoes have been pledged by local growers who have formed an association for co-operative marketing.

The Texas railroad commission has approved the application of the Orange and Northwestern railroad company on transit arrangement, at Orange, on cordwood in carload lots when used in the manufacture of paper.

One span of the Jones iron bridge across the Brazos river west of Bryan on the Brazos county side of the river has fallen from the piers, and that important thoroughfare is now closed to traffic. The accident was caused by erosion of the bank due to the continued high water.

The attorney general this week held that a corporation with dual purposes must pay the annual franchise tax on the full capital stock for each purpose enumerated in its charter. This construction of the law was made in an opinion written by Assistant Attorney General Wallace Hawkins in answer to an inquiry from Secretary of State Sidney L. Staples.

The supreme court of Texas has declared unconstitutional part 5, of article 5695, revised civil statutes of 1911, concerning limitation of vendor's lien notes, holding that while the rest of the article was valid, this paragraph, which sought to make distinction between limitations on debts before and after June 14, 1905, was discriminatory.

Chambers county has called upon local interests to co-operate with it in building a hard-surfaced road from Beaumont to High Island, Galveston county. Jefferson county has a paved road to the Chambers county line and Galveston county has a paved road from High Island to the Chambers county line. There remains a link of about fifteen miles to be hard-surfaced.

New regulations governing the dipping of hogs when shipped for immediate use are expected to be drafted with the return to Fort Worth of K. E. Bogg-Scott, chairman of the live stock sanitary commission, who is in South Texas on a tour of inspection. The present rule sets out that under certain conditions hogs shipped for immediate slaughter must be dipped in a certain solution.

At the closing business session of the fourth annual convention of the West Texas Chamber of Commerce at Plainview, Texas, A. B. Spencer of Crosbyton was elected president, while as vice presidents the following were named: J. A. Kemp, Wichita Falls; Carl S. Guinn, Ballinger; J. F. Hartford, Post; G. E. Lockhart, Tahoka; C. H. Fulwiler, Breckenridge, and Dr. P. C. Coleman, Colorado City.

Commissioner of Insurance and Banking Ed Hall has inaugurated plans for the creation of an independent nonpartisan Texas bureau for the supervision of workmen's compensation insurance ratings and regulations. At this time the work is done by the Texas branch of the national bureau of casualty and surety underwriters and it is Mr. Hall's desire to have the Texas supervision entirely divorced from outside connections and influences.

All South Texas has joined in the war on the Texas fever cattle tick, T. W. Hawkins, state district tick inspector, declared this week upon his return to Houston from a trip to Washington, Austin, Waller and other nearby counties. The tick fighting organization of inspectors for Harris County has almost been perfected and tick eradication, which thus far has been sporadic, will within a few days be thoroughly systematized and each inspector assigned to a section of his own.

Indications are for an East Texas tomato crop of approximately 1,600 cars, according to a survey being made by experts.

A $500,000 bond issue has carried in road district No. 1 for the purpose of constructing a hard-surfaced road from the Fort Bend County line through Sugarland to the Brazos River, together with several lateral roads, absorbing an issue of $108,000 of a $150,000 issue made some years ago. When this road is completed and the bridge constructed over the Brazos at Richmond it is probable that it will be extended on west to the county line. This will give Richmond an excellent highway to Houston.

RAILROAD WORKERS WILL HELP MINERS

Convention Pledges Its Assistance, "Morally and Financially."

Houston, Tex.—The convention of the Brotherhood of Railway Firemen and Enginemen Friday took the first step toward a great labor alliance when it formally indorsed the striking coal miners; passed resolutions stating "their fight is our fight," and promised every needed assistance, "morally, financially and otherwise."

The action followed the program outlined at a meeting in Chicago in February, when President John L. Lewis of the mine workers advocated a union of the great labor organizations of the country.

The resolution supporting the mine workers said that at present an organized attack is being made on labor, and that only by uniting can it be resisted. A special committee is studying the question of appropriating $50,000 monthly for ten months for the coal miners. In addition the convention authorized President Carter of the brotherhood to expend such sums for their assistance as may be necessary, giving him a free hand.

A resolution protesting the decision on the child labor law handed down by the United States supreme court and written by Chief Justice Taft was approved today in the convention of the Brotherhood of Locomotive Firemen and Enginemen.

JEHOIAKIM TRIES TO DESTROY GOD'S WORD

LESSON TEXT—Jeremiah 36.

GOLDEN TEXT—The Word of our God shall stand forever.—Isa. 40:8.

REFERENCE MATERIAL—Isa. 55:8-11; Matt. 5:17-19.

PRIMARY TOPIC—The Burning of a Good Book.

JUNIOR TOPIC—Jehoiakim Burns the Prophet's Book.

INTERMEDIATE AND SENIOR TOPIC—A King Who Scorned God's Word.

YOUNG PEOPLE AND ADULT TOPIC—How to Meet the Forces Antagonistic to God's Word.

I. The Book Being Written (vv. 1-4).

1. The Time of (v. 1). In the fourth year of Jehoiakim, Jeremiah had been exercising the prophetic ministry some thirty years.

2. Against Whom Spoken (v. 2). They were directed against Israel, Judah and all the nations.

3. The Purpose of (v. 3). The grand object of the Lord in sending this message by the prophet was Judah's repentance.

4. Method of (v. 4). Jeremiah dictated the words of the Lord to Baruch the Scribe, who wrote them upon a roll of a book.

II. The Book Being Read (vv. 5-21).

Jeremiah was unable to speak the message of the Lord to the people, as he was "shut up" (v. 5). "Shut up" most likely means a royal ban against Jeremiah's proclamation of God's Word to the people or against his entering the temple.

1. To the People (vv. 6-10). The occasion which brought the people together was a day of fasting (v. 6), because of the threatening of the Babylonians. Jeremiah directed Baruch to read to the people the words of the Lord which he had dictated to him, with the hope that the people would present their supplication before the Lord and return every one from his evil way.

2. To the Princes (vv. 11-19). While the reading of the book unto the people seemingly created no great impression, yet Michaiah was so deeply moved that he went to the scribe's chamber where the princes were assembled and declared unto them all the words which he had heard Baruch read. The princes sent for Baruch to come and bring the roll with them. Baruch came and read to them with the result that (1) they were aroused with fear (v. 16). (2) They inquired as to how he had written the words (vv. 17, 18). To this he replied that he had written in the book the words which Jeremiah had dictated to him. (3) Their concern for the safety of Jeremiah and Baruch (v. 19). They were instructed to hide themselves from man's sight.

3. To the King (vv. 20, 21). The princes regarded the words of the Lord to be of such importance that they should be read in the hearing of the king, for he was mainly involved in the judgments pronounced. Upon their report of the matter to the king, he had Jehudi bring the roll and read it to him in the presence of the princes.

III. The King Destroying the Roll (vv. 22-26).

Instead of becoming penitent and afraid he became enraged and cut the roll leaf by leaf and threw it into the fire until it was consumed. This he did against the intercession of some of the princes. When the roll was destroyed he ordered Jeremiah and Baruch arrested.

IV. The Roll Rewritten (vv. 27-32).

The burnt roll was reproduced by the command of the Lord, and many like words were added unto them. We should learn from this incident—

1. The Indestructibility of God's Word. Men may cut it to pieces and burn it, but the Word of God shall stand forever. It comes to light again with woes added to be visited upon its would-be destroyers.

2. The reason men attempt to destroy God's Word. It is because of the authoritative rebuke of their sins. The Bible arraigns man for his pride and wickedness and asserts God's sovereign power over man and his demand for a personal surrender unto Him and worship of Him.

3. The Method of Attempted Destruction of God's Word. It was part by part. "When Jehudi had read three or four leaves he cut it with a penknife." The rationalist today cuts out the biblical conception of God as a being whose essential nature demands punishment of sin; therefore he cuts out the Bible doctrine of man as created of God in His likeness and image. Instead of that he makes man a product of evolution; therefore he explains away the fall of man.

About the only kind of a pet animal that would look good on the street with a woman who wears galoshes would be a baby elephant.

One reason perhaps why we believe that there is more spooning and "petting" going on among young people than in the good old days is because the young people are so frank nowadays in telling us about it.

YOUNG MOTHER NOW STRONG

Her Mother's Faith in Lydia E. Pinkham's Vegetable Compound Led Her To Try It

Kenosha, Wisconsin.—"I cannot say enough in praise of Lydia E. Pinkham's Vegetable Compound. My mother had great faith in it as she had taken so much of it and when I had trouble after my baby was born she gave it to me. It helped me so much more than anything else had done that I advise all women with female trouble to give it a fair trial and I am sure they will feel as I do about it.—Mrs. FRED. P. HANSEN, 562 Symmonds St., Kenosha, Wisconsin.

A medicine that has been in use nearly fifty years and that receives the praise and commendation of mothers and grandmothers is worth your consideration.

If you are suffering from troubles that sometimes follow child-birth bear in mind that Lydia E. Pinkham's Vegetable Compound is a woman's medicine. It is especially adapted to correct such troubles.

The letters we publish ought to convince you; ask some of your women friends or neighbors — they know its worth. You will, too, if you give it a fair trial.

MOTHER!

Clean Baby's Bowels with "California Fig Syrup"

Hurry Mother! If baby has colic, diarrhoea, food souring, feverish breath, coated tongue; is restless and can't sleep because of clogged bowels, give a half-teaspoonful of California Fig Syrup. It moves the wind and gas and all the souring food, bile and poison right out of the tender little bowels without cramping or overacting and baby usually gets peaceful relief. Contains no narcotics or soothing drugs.

Millions of mothers depend upon California Fig Syrup to keep baby's bowels clean, sweet, and regular. Ask your druggist for genuine "California Fig Syrup" which has full directions for infants in arms and children of all ages plainly printed on bottle. Mother! You must say "California" or you may get an imitation fig syrup.

Daddy's Evening Fairy Tale

MARY GRAHAM BONNER

COPYRIGHT BY WESTERN NEWSPAPER UNION

IMPORTANT EVENTS

"As I told you the other day," said the Fairy Queen, "the help that Mother Nature gives me by showing me her diary is the greatest help in the world, when I want to get out a copy of the paper we call the Natureland News.

"Mother Nature keeps such an excellent diary. She has all the dates down, and just what happened on every date, and then she keeps her back diaries too, so you can see what happened last year at the same time, and whether there was an early summer or late fall or whatever you want to know.

"Now I have yet another copy of the Natureland News to give about, and so Fairies, I'd like to have you invite our friends to come and receive copies."

The Fairies went and asked all their friends to come and receive copies of the Natureland News.

And everyone of their friends came to Fairyland. The Oaf family came; the Brownies came; the Elves came; the Bogey family came; the Gnomes came; old Mr. Giant came; Witty Witch came, and the Breeze Brothers came and brought with them Mr. Wind.

"I shall ask old Mr. Giant to read the paper aloud today," said the Fairy Queen, "and then we are going to have a frolic with the shadows. By the time old Mr. Giant has finished reading it will be time for the shadows

"Mr. Giant Began to Read."

to come and play hide-and-go-seek with Mr. Sun.

"So, Mr. Giant, will you be so good as to read the paper aloud to everyone, so we can all know the important events which have happened lately in Natureland or which are about to happen."

"Gladly, gladly," said old Mr. Giant. "I will sit on yonder strong stump, and then I will read."

"Good," said Witty Witch. "We can all sit about the stump. But will it be too crowded for your long legs, Mr. Giant?"

"I think not, I thank you," answered old Mr. Giant most politely.

"I think there will be just about the right distance. The stump is fairly high."

"Yes, that is so," said Witty Witch.

So Mr. Giant settled himself on the stump, and all the fairyland creatures and their friends gathered about while the Breeze Brothers and Mr. Wind hovered near.

The Breeze Brothers were rather restless, and got up all the time for little races and dances and merry frolics, but no one minded, for such were their ways, and they did not mean anything rude by their actions.

They were just naturally restless.

Old Mr. Giant began to read. He read the weather report, and the name of the paper, and the name of the editor-in-charge—the Fairy Queen; of her assistants, Mother Nature, the Fairies, the Breeze Brothers.

He read of the Shadow ball, that was to take place shortly, and of Mr. Moon's advertisement to accept no other moons as substitutes.

Old Mr. Giant explained to those who did not know that substitutes were people who took the places of other people who had intended to be on hand.

For example, he explained, if he had promised to appear at a lecture hall and couldn't attend, the one whom he would send in his place would be the substitute.

Then he read the "Personal Items of News."

"Grandpa Frog, of Frog Hollow, has announced the opening meeting of the Frog Glee club to take place in the Hollow at eight o'clock, two weeks from Saturday evening."

Next he read:

"The members of the family of the Goatweed Emperor Butterfly are using the same leaf to feed upon as they use for a perch. Before long they will leave their present state as caterpillars, and will later become butterflies."

Then he read:

"General Sparrow and his family fought yesterday against Sergeant Starling and his family. The Starlings won but the Sparrows expect to have another chance soon."

And then the shadows appeared and the fairyland-shadow ball and frolic commenced!

New York Recorder Tells Husband to Give Wife's Annoyer "Good Licking."

Atlantic City, N. J.—Webster Risley was instructed to "beat up" Thomas Curtis by Recorder Clarence Goldenberg. This decision followed the testimony of Mrs. Risley, who said that Curtis was accosting her on the street, writing unfounded accusations in letters to her husband and making scenes when they went in public places.

The husband is tall and muscular, while the defendant is small in stature, sparsely built and wiry in movement.

"It looks to me as if you were big enough to settle the controversy by beating him up, and while you are at it I would suggest that you give him a good licking," said the recorder.

If You Need a Medicine You Should Have the Best

Have you ever stopped to reason why it is that so many products that are extensively advertised, all at once drop out of sight and are soon forgotten? The reason is plain—the article did not fulfill the promises of the manufacturer. This applies more particularly to a medicine. A medicinal preparation that has real curative value almost sells itself, as like an endless chain system the remedy is recommended by those who have been benefited, to those who are in need of it.

A prominent druggist says "Take for example Dr. Kilmer's Swamp-Root, a preparation I have sold for many years and never hesitate to recommend, for in almost every case it shows excellent results, as many of my customers testify. No other kidney remedy has so large a sale."

According to sworn statements and verified testimony of thousands who have used the preparation, the success of Dr. Kilmer's Swamp-Root is due to the fact, so many people claim, that it fulfills almost every wish in overcoming kidney, liver and bladder ailments; corrects urinary troubles and neutralizes the uric acid which causes rheumatism.

You may receive a sample bottle of Swamp-Root by Parcels Post. Address Dr. Kilmer & Co., Binghamton, N. Y., and enclose ten cents; also mention this paper. Large and medium size bottles for sale at all drug stores. Advertisement

NEEDS OF STATE INSTITUTIONS

Estimates to Be Made Now for Expenses for the Next Two Years.

Austin, Tex.—The state board of control is forwarding the budget requisition blanks to the heads of the various state departments and institutions on which to itemize appropriations needed for the two years beginning September 1, 1923. It was the board of control law that inaugurated the first budget system for Texas and the board is asking that this data be supplied as early as possible and not later than July 1. Its members propose to visit the various institutions and departments during late June and early July preparatory to formulating the budgets for the biennium.

Chairman S. B. Cowell of the board estimated this week that the aggregate to be recommended for the two years will be about $26,500,000, as against $24,478,000 two years ago, when its first budget was constructed. An increase of 5 per cent is expected.

Two years ago the requisitions by the various departments and institution heads reached $40,000,000, and was cut to less than $25,000,000. It is expected that the demands to be made this two-year period will be as large as usual and will be cut again.

"We hope to find enough money to resume a modest building program," said Chairman Cowell, "especially at the state asylums, which are now crowded beyond capacity. We also have a crying need for dormitories at the College of Industrial Arts, the A. and M. College, Grubbs Vocational College and the John Tarlton Junior Agricultural College. Besides that the main building and auditorium at the North Texas Normal have been condemned and that institution will seek funds for new construction."

Mr. Cowell said that while the units constructed at the Northwest Texas Insane Asylum at Wichita Falls contemplates 2,000 patients, the dormitories can be crowded to accommodate only 400 inmates and that all of the other insane asylums are caring for more than their recognized capacity. Large additional dormitory facilities, therefore, are needed at Wichita Falls. Two new dormitories are also needed at the Rusk asylum, one for whites and one for negroes.

According to Chairman Cowell the Tarrant county jail recently sent nineteen patients to Wichita Falls and now has thirty-one more awaiting accommodation in the asylums. Other jails contain insane, he declared, until the present capacity of all the institutions will be filled.

Originally the Wichita Falls asylum was designed to accord the latest scientific treatment to the insane and to take only those cases classed as having a chance for recovery or material improvement, but because of the many insane in the jails it has been found necessary to receive all classes at the newest state institution for the insane.

The blanks adopted by the board of control are made so as to afford instant comparison of all items and whether same are new or not. The sheets are divided into four groupings. The first group asks for the appropriations by items, each of the years ending August, 1921, 1922 and 1923. The second group calls for the amounts expended, by items, for each of the years ending August 31, 1921 and 1922. The third group seeks the amount requested by items, for each of the years ending August 31, 1924 and 1925, and the last group is for the board's recommendation in every instance for each of the last two years.

INSPECTION OF STATE'S SHORT ROAD COMPLETED

Austin, Tex.—Lieutenant Governor Lynch Davidson, chairman of the board of managers of the state railroad, visited Austin this week following an inspection of the property, which has been relaid with eighty-pound steel and is now operated by the Southern Pacific under lease.

Governor Davidson says the roadbed is in fine condition; that the heavy mogul locomotives operate over it, and that trains have made as high as fifty miles per hour. He also declared that the company is doing a fine business with a 100 per cent increase for May over April and that next month it will handle 150 cars of tomatoes originating on its rails. The passenger business is also reported as satisfactory.

Death Follows Identification.

Waco, Tex.—At the home of the young woman whom he assaulted Thursday night, after killing her escort, a negro, Jesse Thomas, who was positively identified by Mrs. Maggie Hays, 26 years old, as her assailant and the slayer of Harrel Bolton, paid the penalty with his life Friday. He was shot and killed by Sam Harris, father of Mrs. Hays, who began firing as soon as his daughter exclaimed "that's the man, papa." The body was later burned by a large crowd.

Highest Quality—Lowest Prices

The entire Goodyear effort of many years has been toward one result—the tire buyer's advantage.

Goodyear has taken two methods to achieve that result.

One has been to raise the quality of Goodyear Tires.

The other, to lower Goodyear prices.

Goodyear has succeeded in both—to your great advantage.

Goodyear Tires are better today than ever—larger, heavier and stronger. Many users tell us they are getting double the mileage from them they got from Goodyears ten years ago.

Goodyear prices are lower today than ever. On the average they have decreased more than 60% from the prices of 1910.

Look at the figures listed below.

Think of the fine performance of the Goodyears you have known, and remember that Goodyear Tires are giving even better performance now.

YOUNG MAN'S OPPORTUNITY.

There are spent twelve to fourteen million bales of cotton raised annually. Tvery bale has to be ciassed from one to four times, seldom by the same man twice.

Untill the last five years, there have been no training schools in this line, consequently the supply of men for this work is limited.

Thousands of ware-houses are being erected in this country and every ware-house requires two or three men to handle the cotton.

The Commissioner of the Market and Ware-house Deyartments has appointed a Board of Examiners to ezamine applicants for license as Public Cotton Classers.

To those passing a license is issued to engage in the business of Public Cotton Classing and to charge for his services.

These examinations are open to both men and women.

Practically every town and village where cotton is sold will employ one or more licenesed cotton classers. Aaron Sapiro, Organizer for the National Marketing Association, says that between 10-per-cent and 16 per-cent of the entiro cotton crop is lost to farmers on account of incorrect grading.

It is the purpose of the Association to have competent Cotton Classers grade their cotton for all farmerg belonging to the Association. This statement from one who is in a position to know shows two things, first that the man who raises cotton should be able to class it, to protect himself from loss, and second, that there is a wide and growing field of employment for the competent cotton man.

Cotton is the leaning product of the South and will continue te be.

Every young man of the South should khow the classification and handling of cotton.

More money is lost each year by the farmers on the marketing of
