Greetings to the Lufkin High School Student Body and Faculty:

It is again my privilege to congratulate you on the completion of another successful school year.

To those of you who will graduate, I should like to extend my very best wishes for your future achievements. We are pleased to have had a part in your learning up to this time, and we want to feel more than anything else that we have provided you with a good foundation for further education in life.

To those of you who will remain with us for further training, I should like to challenge you to do even more and better than before, for the days ahead call for men and women of talent and vision, ambition, and determination. I trust that you will utilize every opportunity that will be offered you in the next year or two.

To the entire student body and faculty, I should like to express my appreciation for your scholastic and extracurricular work, your cooperation and spirit of fellowship which have led to many fine accomplishments and have brought honor to the Lufkin Public Schools.

J. A. Anderson
Superintendent of Schools

Education has an obligation to truth in itself and for its own sake. People have the right to seek, defend, and make human use of education. The training of the body and spirit demands unremitting insistence upon moral ideals and spiritual values of love, honor, self-respect, kindness, gentleness, sympathy, honesty, responsibility, humility and integrity. The educated person will insist upon these values.

Education has the responsibility of developing proper attitudes toward work. Work should be sought, enjoyed, and respected rather than avoided, suffered, and despised. When educational values can be derived, students should be encouraged to contribute to the social dividend by improving and safeguarding their school. A proper attitude toward work is a mark of the well educated person.

This has been a pleasant and productive year for all of us. I hope this school year in Lufkin High School will live pleasantly in your memories. God bless and keep you.

The office is one of the busiest places around our school. All textbook records, class permits, permanent records, attendance records, and activity fund accounts are kept here. It also serves as a post office and a switchboard. The office staff is always ready to stop their work and help on any problems that are brought to them.
