Dear Alumni/Alumni Parents/Teachers:

As we reflect back on the days of H. G. Temple, a number of memories comes to mind. Some are humorous, some are serious , while some are downright hilarious. But the one thing that stands out in our mind is the true meaning and the foundation for education.

The untiring efforts of the teachers both past and present are those things we the ex-students of H.G. Temple still hold dear. The values, the quest for learning, the idealogy for the true foundatiion of self-enrichment, and esteem, that you instilled in our young impressionable minds has carried us through various plateaus, and professions in life. For this we are enternally grateful.

To the parents we say a "Big Thank You" for without your love, guidance, and disciple, we would not be the men and women we are today. For you too had a vision of things to come and put forth a determined spirit that we your offsprings would not endure the same fate that you so long endured.

So to you as our parents, teachers and friends of the community, we dedicate this souvenir book in your honor and memory.

A special dedication, and commemorative tribute to C.O. Bradley, the first high school principal.

Many individuals in various settings have contributed in a variety of ways to the creation of this book. The helpful cooperation of the many people involved is greatly appreciated. For your exceptional skills and dedication were indispensable in the preparation of this book.

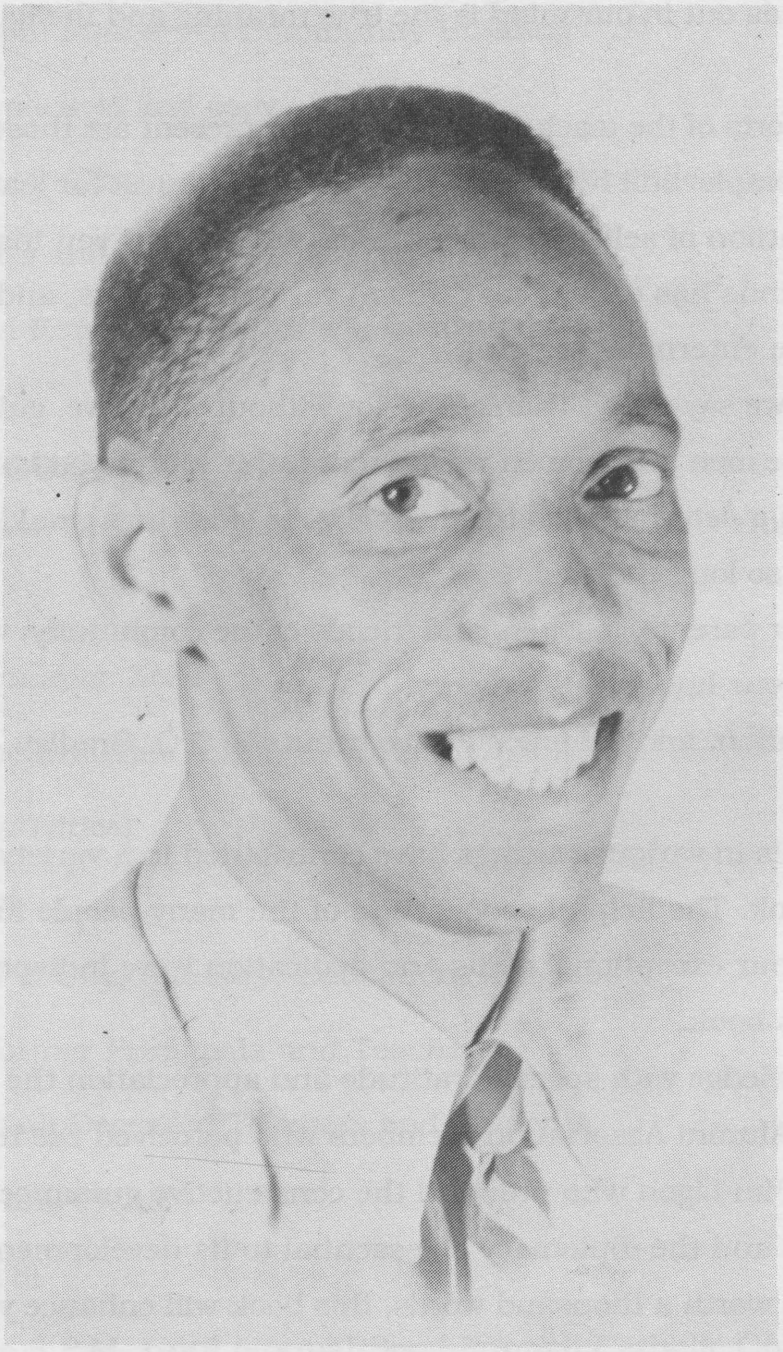

Finally I acknowledge with special gratitude and appreciation the masterful stewardship of the Diboll Alumni Association members who perceived the timeless need for this book. And to Jim Ligon who provided the constructive guidance, the painstaking attention to detail, and the diplomacy so essential to its development.

If one picture is worth a thousand words, this book will enhance your vocabulary by millions. We trust you enjoy going down memory lane.
