Dear Mr. Scott:

Memorial hospital is going to inaugurate a courtesy card system. The primary purpose of this system is to identify a person with the employees of the hospital so that this person will not be delayed upon admission. On each card issued, pre-admission data will be requested and this will be maintained in the hospital in order that a person with a courtesy card coming into the hospital will only have to furnish an admitting diagnosis and the name of the doctor.

I would appreciate you sending me a list of your key employees in order that when these cards are issued, one will be mailed to them without us obtaining credit information.

As soon as these lists are compiled, this program will go into effect.

Sincerely,
