Salvation Army urging persons to show concern for less fortunate

At the season of family dinners and office parties, the Salvation Army asks us to remember those who won't receive any holiday invitations.

At the season of "peace on earth", The Salvation Army asks us to remember those who feel battered by misfortune.

At the season of toys and treats for youngsters, The Salvation Army asks us to remember those who are old and uncared for.

The Salvation Army - whose symbol is a shield - asks us to remember to share with others.

A shield is used to protect, to defend, and to shelter. The Salvation Army has been shielding the needy, the lonely, the outcasts for over 100 years.

In the Bible we read, (Psalms: 84:11) "For the Lord, God is a sun and shield..." The Salvation Army translates that verse into practical action.

We can all help in the work of shielding and sheltering our needy neighbors. Drop a contribution in The Salvation Army kettle on the street corner. Or, send a check to The Salvation Army, P.O. Box 1787, Lufkin.

4-H members converge on Chicago for 56th National 4-H Congress

Sixteen hundred 4-H members from across the nation will converge on Chicago the weekend after Thanksgiving for the 56th National 4-H Congress.

The "Freedom To Be" theme of the five-day meeting will highlight the opportunities 4-H offers young people for personal, social, life-skill and career development.

Congress opens Nov. 27 and runs through Dec. 1 at the Conrad Hilton Hotel. Most delegates are older teens who have won state, sectional or national honors for their 1977 4-H projects.

Two-hundred & seventy-three of the delegates will share in national and regional scholarships totaling $249,500 to be awarded during the week. Scholarships and expense-paid trips to congress are donated by about 40 businesses, foundations and other private-sector organizations.

Several of these 4-H donors sponsor major events during congress. Among them are The Firestone Tire & Rubber Company, which hosts a breakfast for all congress participants, and International Harvester Company, sponsor of an all-congress luncheon. Firestone is donor of awards in the national 4-H automotive program and Harvester supports the 4-H agricultural program and several international exchanges.

All delegates will be guests of Tupperware Home Parties, home management program donor, for an evening of musical entertainment at the Auditorium Theatre. And the National 4-H Photo Exhibition sponsored by Eastman Kodak Company, 4-H photography doner, will be on view throughout the week.

General Motors treats state and national 4-H safety winners to a recognition dinner and a picture-taking session with the reigning Miss America. Two of the many other donors who play host to their 4-H winners at special meal events during congress are Eli Lilly and Company, health program sponsor, and The S&H Foundation, Inc., home environment.

For the 25th year, adults who are former 4-H members can earn gold key awards and expense-paid trips to congress as national winners in the 4-H alumni recognition program sponsored by Olin Corporation.

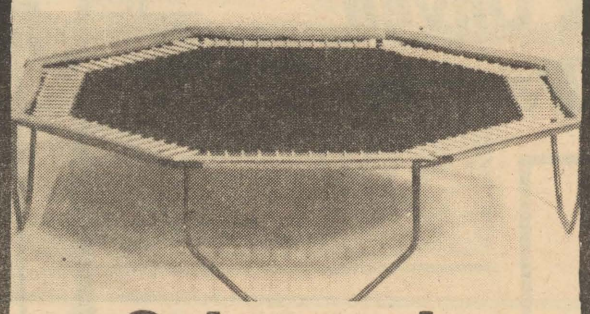

National 4-H Congress is jointly planned and conducted by the Cooperative Extension Service and National 4-H Council, with the support of the private sector, to provide education, inspiration and recognition for outstanding 4-H members.

In addition to scholarships, expense-paid trips and other congress-related support, private-sector resources make possible a variety of programs and services to 4-H throughout the year.

For example, a new 4-H wildlife conservation program funded by Atlantic Richfield Foundation encourages young people to take the lead in community and state conservation efforts.

The Singer Company supports a training course to improve 4-H leaders' teaching skills and members' learning experiences in the care and use of sewing machines. The Conrad Hilton Hotel and the Federal Intermediate Credit Banks fund the Report to the Nation phase of a national 4-H public relations program. And Daisy Division, Victor Comptometer Corporation, sponsors a 4-H hunter education program that emphasizes safety and conservation.

Evening Lions induct three new members

Three new members were inducted into the Lufkin Evening Lions Club Tuesday evening, Nov. 22, as the Lions were honored with the presence of Districk Governor Farley Bowers. Bowers is overseer of District 251 which covers the area from Port Arthur to Henderson.

The new members installed were Ross Parker, sponsored by Lion Doug Nicholson, and Wil May and Joe Turner sponsored by Lion Ken Winterfield. The District Governor was present to initiate the proceeding along with the Deputy District Governor Williams Counts who is a member of the Hudson Lions Club. Other visitors included Zone Chairman William Durham.

The Lufkin Evening Lions Club meets two nights a month at the Lufkin Opportunity Workshop behind Kiwanis Park. The workshop is one of the major accomplishments of the Evening Lions Club.

The Christmas season is just around the corner and the Evening Lions Club will be participating in a number of local events. On Dec. 3, they will begin assisting with bell ringing for the Salvation Army in a number of locations throughout the city of Lufkin.

On December 10, the Lions will be having a barbeque sale at Angelina Mall with all proceeds going to charity organizations in the area. December 13 marks the date that the Lufkin Evening Lions Club will hold its annual Christmas Party at the Lufkin Opportunity Workshop. Members and their families are to attend the occassion.

Anyone wishing to become a member of the Lufkin Evening Lions Club should contact Jack Gartner at 634-2011. The Lufkin Evening Lions Club currently has 110 members.

Venereal disease on the rise; five or six cases reported daily

Despite the fact that the Texas Department of Health is doing all it can to combat the outbreak, venereal disease is on the increase in the United States.

According to Angelina County Health Officer Alfred Hamilton, his office receives an average of five or six confirmed cases of the crippling disease each day. He stated that those coming in contact with the various forms of venereal disease range from the age of nine all the way up to 69 years of age.

In recent reports distributed by the Medical Society, venereal disease now constitutes a public health emergency of the first order; killing, crippling and seriously endangering the mental and physical well-being of millions of people. Gonorrhea is the leading reported communicable disease in the country and syphilis is third. Its been discovered that venereal disease strikes someone in the United States every 12 seconds; five new victims every minute. In an informative report released by the Youngs' Drug Products Corporation, which is a leading manufacture of prophylactics, venereal disease is the general name given to those diseases caused by organisms which are transmitted from persons who already have the disease to other persons either by sexual intercourse or by close body contact involving the sex organs, mouth and/or rectum. The organisms causing these diseases can't live very long when exposed to light and air away from warm moist areas of the human body. Thus, there is little danger of becoming infected with syphillis or gonorrhea from public toilets, drinking cups, eating utensils or the like.

Why is the infectious venereal disease increasing so rapidly? One of the factors that have caused an increase in VD is that many people have VD but don't know or recognize the symptoms. Even a lack of knowledge of what causes venereal disease could be a major contributing factor. Angelina County Health Officer Aldred Hamilton adds that many people who come in contact with VD are ashamed or embarassed to admit it and fail to report a case. He also stated that people who recognize symptoms and then get treated often fail to have all their sex contacts examined and treated.

The two most common kinds of venereal disease are syphilis and gonorrhea. Syphilis is sometimes called pox, lues, bad blood, siff and old Joe. Gonorrhea is sometimes called clap, strain, gleet, morning drop, "a dose" and "the whites". Syphilis affects men and women very much the same way. Usually the syphilis germ enters the body through the skin in or around the sex parts.

The first sign of syphilis may be a sore. This probably will show up sometime between 10 and 90 days. This sore usually appears

Cont. on B -5

Let's get Mikey to try it!

Norma Carter's first grade class at Central School received some education in the culinary arts last week when they prepared their own Thanksgiving dinner. The menu included duck, deer meat, pumpkin bread, cranberry sauce, corn and fruit salad among other things.

Civil Air Patrol from A-22

the canyon flood disaster there, in Johnstown, Penn., and more recently in Toccoa, Ga. In addition, each year CAP crews perform many mercy flights, airlifting needed human blood, sera of various kinds, and patients who need to be moved to better medical facilities.

When Civil Air Patrol members proudly tell of their organization, they begin by telling of its life-saving efforts, since that is the mission for which it is most famous. But there are others, its aerospace education mission for example.

Civil Air Patrol has been responsible for helping inaugurate courses on aviation and space-related subjects in hundreds of schools across the nation. And each year, it sponsors aerospace education seminars in colleges in every state, to help train teachers in how to teach these subjects.

But, most of all, Civil Air Patrol is proud of its program of leadership development and motivation for young people--its cadet program. When some young people are told about CAP's cadet program, they may shy away from an organization which has friendly ties to the military. But after they become a part of it, they think its wonderful.

Civil Air Patrol sponsors a training course in aerospace education as part of its cadet program. In addition, it sponsors a variety of special courses and encampments for its teenage members--many of these being in cooperation with the Air Force.

The top-level such activity is the International Air Cadet Exchange. Under this program, which the Air Force helps sponsor, young members of Civil Air Patrol, accompanied by adult escorts, visit approximately 22 foreign nations which participate in the program. At the same time, Civil Air Patrol is host to like numbers of foreign cadets who visit the United States during this annual summer program.

So, if you get lost out there in the wilderness, if your little plane crash-lands and you survive, take heart. Civil Air Patrol volunteers will be out there looking for you. And when you see that small plane with the CAP insignia fly over, cheer up, help is near.

Then, while you are recuperating from your traumatic experience, they will tell you how important it is for Americans to understand the importance of aviation and space developments and about the cadet program. If you listen long enough, you may find yourself getting proudly involved.

After all, if you have helped establish a 36-year record of service to the nation, you have reasons to be proud.

Venereal disease from B-4

at the place where the germ enters the body, but it may appear on fingers, lips or breasts. When a person has such a sore, he or she is said to have syphilis in its primary stage. Sometimes, such a sore does not show up at all; or it may be so small that it goes unnoticed. This first sore is called a chancre (pronounced shanker). It may look like a pimple, a blister or an open sore. When a person has such a sore, he or she is very dangerous to other persons.

According to Doctor Hamilton, most state laws require that people who want to get married must have a blood test first to make sure they do not have syphilis. One reason for this is to protect their unborn children. Of course, syphilis may be caught after marriage if either husband or wife has intercourse with a third person who has syphilis.

In all, if a person thinks he or she has syphilis or gonorrhea, it is best to go to the doctor of public health clinic at once. In this way the doctor will be able to tell for sure. With prompt and proper diagnosis, the medical profession has available many drugs to treat gonorrhea and syphilis.

Hamilton stated that the key to the treatment is in getting prompt attention. Both diseases, however, can be treated. Hamilton said that sometime this year the Texas Department of Health will be issuing a vaccine in which to prevent gonorrhea. With treatment, the disease can most likely be annialated, but it is important to get attention when the disease is in an early stage. At the Angelina County Health Office the treatment is free. There is a small fee, though, to cover registration forms and records.

Hamilton added that the best preventative to contacting venereal disease is to be cautious of unknown individuals. The surest way, Hamilton said, would be a complete contracted abstinance. In comparison, gonorrhea and syphilis are both contracted from people who have the disease both are contracted by millions of people, both are spread through sexual contact and both are dangerous.

Additional information on Venereal Disease can be obtained free of charge from the Angelina County Health Offices located at 915 Ellis Street in Lufkin. If you would like to phone for information, dial 632-1139.

(Some information obtained in this article came from "What everyone should know about Syphilis and Gonorrhea", published by the Texas Department of Health.)

Bear hug

Ryan Deaton and Melanie Murphy get a hug from Smokey the Bear during Smokey's visit to the 4-year-old class at First United Methodist's week-day church school. Smokey's visit came at the end of a three week study of fire prevention by the class.

REAL ESTATE CORNER

PHONE:
Corner Chestnut & Lee

Dot Ray-Broker
Residence 824-2111

Any Realtor will tell you that the three most important factors concerning the value of a house are: "Location, Loaction, and Location." Unfortunately, most home buyers ignore this important advice.

Location is especially vital when buying a house for maximum resale value. Statistics say that you will be reselling your home long before the final mortgage payment is in the mail. Therefore, take a long, hard look, not only at the present, but the future prospects for the community and immediate neighborhood.

Select a location where raw land and house values have an increasing price trend. Expecially check into the zoning laws for any unfavorable change which could cause a depreciation in the value of the neighborhood and the resale price of your home in the future.

Remember - you can remove, replace or remodel a house, but you can never change the location. So choose carefully.

If there is anything we can do to help you in the field of real estate, please phone or drop in at LUFKIN REALTY, 1001 Lee, Lufkin. Phone: 639-2227. We're here to help.

New Texas Forest Service facility open in Nacogdoches

"The Texas Forest Service has been a great asset to Nacogdoches and the surrounding counties. We feel like they are planting a seedling that will grow into a fine, strong pine by welcoming and supporting the efforts and programs of the Texas Forest Service, "A.L. Manghum, Mayor of Nacogdoches stated during the opening ceremonies of the Texas Forest Service's new facility.

The building site was offered to the Texas Forest Service by the city of Nacogdoches under a long-term lease agreement. Earlier this year the Service, with the support of the city and the Chamber of Commerce, finalized steps to build the new facility.

"The project would have been cost prohibitive had it not been for a handful of dedicated Texas Forest Service employees who stepped in and built the facility from the ground up in 35 working days," said Paul Krammer, Director of the Texas Forest Service.

The Texas Forest Service was officially welcomed into their new facility in Nacogdoches Wednesday with a ribbon cutting ceremony sponsored by the Nacogdoches Chamber of Commerce.

Constructed of native Southern pine timber, the new facility was built completely by Texas Forest Service employees, except for work required by licensed professionals.

Also present at the ribbon cutting ceremonies were Roy Blake, Texas House of Representatives; Joyce Sweartington, President of the Chamber of Commerce; Bobby Young, Area Forester with the Texas Forest Service; and Ernie Smith, District Forester for the new Nacogdoches facility.

The 1,230-square-foot office building located on Loop 224, will be the headquarters for the Texas Forest Service's District 7, which serves Angelina, Nacogdoches and Southern Cherokee counties.

Book Review

by Emily Kistler · & Judy Semlinger

The Tasha Tudor Christmas Book "Take Joy" is a beautiful book, a gift from Tasha Tudor to everyone who loves Christmas. From a wide range of sources this famous and beloved artist has chosen a richly varied collection of poems, carols stories, legends and even Christmas recipes and decorations. The many full-color and black-white pictures in this book are aglow with the tenderness, reverence, and beauty for which Tasha Tudor's work is known, and her selections celebrate all the joys of the season, both religious and secular. This is truly a book for all members of the family, young and old, one that will be read and reread and cherished for many years.

"I Love The World Impossible" by Ann Kiemel, deals with impossibilities every day, and Kiemel does it with style. Ann Kiemel is dean of woman at Eastern Nazarene College in Wollaston, Mass. Her contacts with young people also include experiences as high school teacher and as church director on the West Coast. Sharing her faith in Christ is the dominant theme of this young woman's life - whether it is to the neighbor downstairs, the seatmate on a plane, an anxious mother in a hospital corridor, or great crowds in a lecture hall or youth camp. Her infectious enthusiasm for day-to-day living with the Lord communicates itself to every life she touches - and yours will be touched for good as you read sparkling manifestor from Ann, who loves the challenge of impossibilities.

"Hide or Seek" by Dr. James Dobson Author of the bestseller "Dare to Discipline" deals with the meaning of behavior in children (and in adults, as well). Dr. Dobson describes the feelings which typically motivate shyness, aggressiveness, glowing, and silliness, apathy, and the intense desire to succeed which propels certain individuals. the common thread between these varying personality patterns is often inferiority, itself. "Hide or Seek" culminates in a discussion of the values which parents should impart to their children in place of the false concepts of society. Dr. Dobson asserts that only Christian values free us from the tyranny of the "self" and offer dignity and respect to every human being on earth. Parents who implement this "better way" will give their children the courage to seek the best from their world rather than "hide" in fear and sorrow.

Recreation and Parks' basketball underway

The Lufkin Recreation and Parks Department will continue registration for the Men's, Women's, and Church Basketball Leagues through Friday, Dec. 2.

The registration fee for the Women's and Church League is $100 and games will be played on Thursday nights.

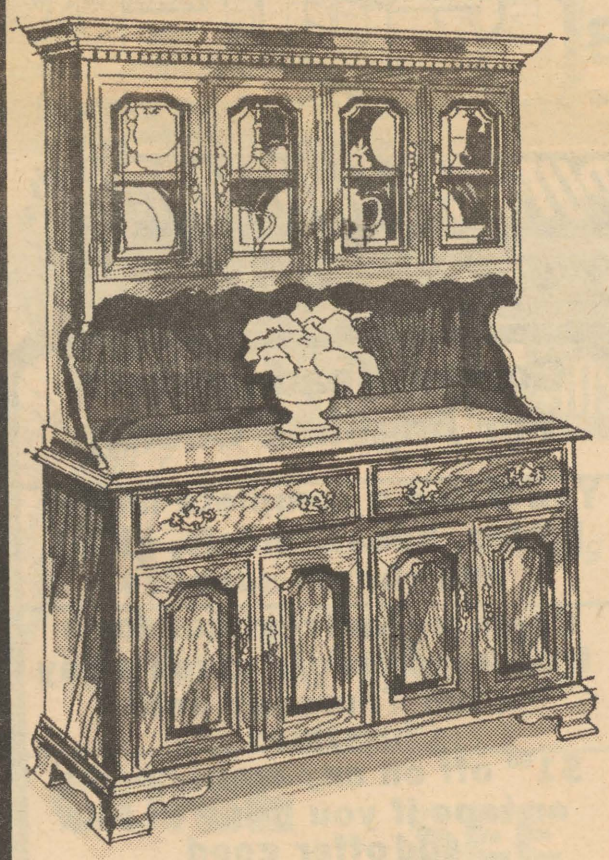

The Men's League will have two divisions, the "a" division will compete for Texas Amateur Athletic Federation Honor, while the "b" division will be a recreational league. Games will be played on Monday, Tuesday and Thursday nights, and the entry fee is $150 per team.

If any team is interested in entering any of these basketball leagues, they need to register at the Downtown Recreation Center, at 125 N. First, before Friday, Dec. 2.

TANBARK OAK

The handsome new oak by Tell City.

Oak with its rich, strong grain is today's most popular furniture wood. And Early American, today's most popular furniture styling. Now Tell City combines them in the new Tanbark Oak group.
