The Foundry Roundup

AUGUST, 1969

Copied from an original at The History Center. www.TheHistoryCenterOnline.com 2013:023

from THE PRESIDENT'S DESK...

FELLOW EMPLOYEES:

WE ARE proud of the fact that we were able to offer employment to more than 100 school boys in our plant this summer. All these young men are clean-cut and eager to do a good job in anything assigned to them. I do not believe I have seen one so-called "hippie" among them.

My association with the young men this summer has convinced me that the majority of them are more praiseworthy in character and action than ever before in any age of history.

I firmly believe that 95 percent of our young men and women today are good people. Yet these are the ones we hear little about. They have a lot of great things to say about our nation; given the chance, they will speak up for America and put the "campus militants" to shame.

These are the ones whose educations are being disrupted, whose colleges are being burned, and whose careers are being interrupted by a five percent group of troublemakers.

Five percent may not sound like much, but a five percent cancer eventually will destroy a life unless something is done to arrest it. The main danger on the college campus today is the destructive element. You cannot build by tearing down.

Al Capp remarked that he had no objection to any herd of semi-domesticated animals roaming the country, uttering their mating cries and scratching their pelts, as long as they avoid centers of civilization. Certainly they are due the right to assemble or protest, but I do not believe they should have the privilege to infringe upon the rights of other students.

Fortunately, most college students are training to take their traditional place in America's free enterprise economy, and go quietly about their efforts to better our community and country.

Today's young people give us much reason for optimism about the future of our country. I am not worried about tomorrow. I know it is in good hands, and especially if we all put forth an effort to rediscover the intellectual and moral disciplines that can give us real strength.

ABOUT THE COVER

From the broad mouth of the Columbia River at the busy seaport of Astoria, to Oregon's southern boundary, stretches 400 miles of ever-changing seashore, a marine realm of smooth beaches and rugged cliffs.

There is oceanside recreation of every kind—horseback riding, golfing, hiking, surf and sun bathing, bicycling on ocean beaches and fishing. Driftwood, seashells and agates are abundant for collectors.

Our Cover this month depicts one beautiful spot along Oregon's coast.

MARIE KAY BARNES, valedictorian of Redland High's graduating class, whips up one of her specialties, chocolate cake.

PERSONALITY SKETCHES *of* SCHOLARSHIP *Winners...*

By Carolyn Curtis

MARIE Kay Barnes, Janice Liese, Tommy Parker and David Willmon are this year's recipients of Lufkin Foundry's Charitable and Educational Foundation's scholarships.

The scholarships total $2400 for each student, a $200 increase over last year's amount.

Parents of the scholars are Mr. and Mrs. Carl Richard Barnes, Mr. and Mrs. Carl Liese, Mr. and Mrs. Thomas B. (Red) Parker and Mr. and Mrs. Roy Willmon.

Barnes is employed in the Welding and Structural Shop, Liese in the Trailer Division, Parker in the Material Control Warehouse and Willmon in the Accounting department.

It is small wonder that Marie Kay Barnes was graduated at the top of her class at Redland High School. Her 95.02 grade average is indicative of her serious approach to studying.

But her appliance of the subject in which she excelled most is an even better measure of her academic acumen. An A student in home economics, the subject in which she has chosen to major at Stephen F. Austin State University, Marie practices her homemaking skills at home and in her church and community life.

She is an excellent cook. Her specialty is chocolate cake and every member of her family, including her brother, Carl Allen, who is stationed with the Air Force in Vietnam, begs her to bake a cake every week. Marie never even uses a cake mix!

(Marie, incidentally, is a collector of dolls and figurines, and three oriental dolls in glass cases adorn her blue and green decorated bedroom. They were mailed to her by Carl Allen, probably in appreciation of the goodies she sends him overseas.)

Her homemaking curriculum included child care and Marie practices the principles she learned by teaching a class for six-, seven- and eight-year-olds at her church.

She babysits frequently. For two summers she has taken care of two elementary school age children while their parents worked, a responsibility she called "challenging."

Near the oriental dolls and in a prominent posi-

JANICE LIESE says her first college problem will be finding room for all her belongings in the trunk and back seat of her new car, a graduation present from Mom and Dad.

tion on her display shelf stands a trophy given her by Crisco as Outstanding Homemaker at Redland High. During her senior year, Marie earned her State Homemaker degree, the highest honor given by Future Homemakers of America, a high school organization which she served as president. In previous years she was second vice president and secretary.

Home ec was not Marie's only outstanding subject in school. In math, she captured the fourth place award in a regional contest involving the use of a slide rule.

Marie plans to work in a branch of the home services field after earning a degree in home economics.

One of Janice Liese's pet peeves is the student who tries to bluff his way through school. She believes that, even if teachers cannot readily see through the facade, eventually it will catch up with the student anyway.

Consequently, she takes the old-fashioned approach to studying. She drills regularly and takes advantage of spare moments to keep up with reading assignments. She even burns the midnight oil if necessary.

Her disciplined study routine has not been in vain. In addition to graduating salutatorian of Lufkin High's 1969 class, Janice was listed in Who's Who in American High Schools and Who's Who at Lufkin High School. Her average was 94.36.

"I really buckled down on my studies in high school. It seems that I have to work harder for A's than most students," Janice said, modestly accounting for her scholastic success.

However, Janice's long list of activities and typical teenage stunts proves that an A student can be more than a "bookworm."

Her flair for drama put her on the LHS stage this spring with the Dramatics Club's presentation of *South Pacific*. Lufkinites may remember seeing Janice and a carload of friends dressed in nuns' costumes driving on Timberland Drive a few nights before the play's opening performance, an incident Janice laughingly recalls as one of the funniest during her senior year.

This outgoing personality placed her in numerous responsible roles at LHS such as membership in National Honor Society, Class Council, Future Teachers of America, French Club and the newspaper staff.

She received a national Merit Scholarship Commendation and the Colonial Dames American History Award.

Highlighting one of her summers was her attendance at Bluebonnet Girls State, where she formulated what she describes as her "conservative or anti-fanaticism" political views. She has been an avid Young Republican.

A favorite pastime is collecting antiques, and Janice considers herself a real bargain-seeker. She is adding to a collection of old hat pins on a hat pin holder given her by her grandmother. She recently added an antique chair to her bedroom arrangement.

Janice is relaxing at home in preparation for

TOMMY PARKER polishes to a high sheen his pride and joy, a blue Pontiac GTO.

---

her freshman year this fall at Southwestern University in Georgetown, where she will pursue a degree in either the teaching or computer fields.

When Tommy Parker stepped out of his house at 6:45 a.m. one Monday morning in early June—the first day of his summer job at the new Trailer plant—he could almost see his face in his freshly-shined shoes.

But when the whistle blew at 3:30, Tommy's shoes were hardly recognizable. "I guess that means I did a hard day's work," he grinned with pride, pointing to the dusty loafers.

Tommy views his summer job as a chance to give his brawn as much of a workout as his brain has been given over the past 12 years. And anyone who graduated from the tough Lufkin High School curriculum with a 93.63 average deserves a rest from bookwork.

This fall he will enter Stephen F. Austin State University as an undetermined major. He doesn't believe in rushing into college with pre-determined notions about the profession for which he is best suited.

"I'll take the basic courses first until I get the feel of college life. Meanwhile I'll be orienting myself on possible careers," he explained, adding that his strongest subjects have always been math and science. He also is fascinated with law.

Tommy attributes his A's to the rule set by his family requiring him always to do his homework as soon as he got home from school. After that he was free to pursue his favorite pastimes, which include most water sports plus hunting and fishing. He confesses little interest in team sports.

Tommy was a leader at LHS, where he was a member of National Honor Society, Class Council and Spanish Club.

He gives serious thought to issues involving his age group and his opinions show positive thinking. He believes in actively improving situations, not just criticizing and discussing existing problems.

For example, he wants to be on the ground floor of a project he is initiating, establishing an indoor night spot for Lufkin's teenagers.

"Everyone complains about not having a place to go," he said, "so let's stop complaining and get a place!" He proposes the new Angelina Mall as a possible site for the dance-recreation center.

Commercial art is David Lee Willmon's career aspiration. But like most budding young artists, he hopes his free lance paintings reach the finest art collections of the world.

He says that most commercial artists practice other media with their free lance art work away from the office.

He dabbles in oils now but hopes to excel in water colors someday.

David is demonstrative about his enthusiasm for art. Throughout his conversation bits and pieces of his art philosophy pop up spontaneously.

"Sometimes oil painting is too exact," he explained. "Water color doesn't require as much paint on the canvas. Water color leaves more to the imagination.

"In a painting the medium is as important a

Copied from an original at The History Center. www.TheHistoryCenterOnline.com 2013:023

DAVID WILLMON mixes a bit of blue to finish the sky in an oil painting. He will major in art.

factor as the subject matter itself. An artist easily can lose part of the feeling of art if the medium he chooses doesn't allow him plenty of room for expression."

Readily admitting he's an amateur artist in search of answers, David delights in testing his partially-jelled ideas on listeners.

"To me water color is softer. More than any other medium, doesn't water color suggest a mood to you?" he will ask.

David displayed three paintings in the spring Art League show. Some of his work has sold.

His sketchbook is full of penciled drawings of family members, friends, favorite television or recording personalities, or just interesting faces he has copied from magazines. All of his sketches are portraits.

He is shy about showing his sketchbook to visitors. He says they are only practice studies and David Willmon prefers to show you the best of himself.

At Hudson High, where he graduated with a 91.5 average, there were no art courses available. He is anxious to begin his formal art training this fall at Angelina College, then transfer to Stephen F. Austin State University for his bachelor of fine arts degree.

In high school he was president of National Honor Society and a member of Student Council. He played center position on the basketball team.

This summer he has been working for C. C. Langford Construction Company.

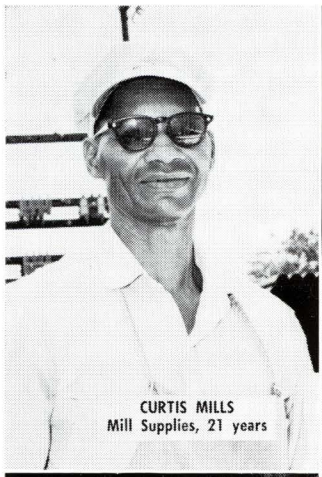

David attributes his high school A's to the solid background he received in the lower grades. He fondly drops the names of several elementary and junior high teachers who encouraged him and laid the foundation for his more difficult high school subjects.

He says that a student is never too young to take his school work seriously. He began working toward winning the Lufkin Foundry scholarship when he was graduated salutatorian of his junior high class.

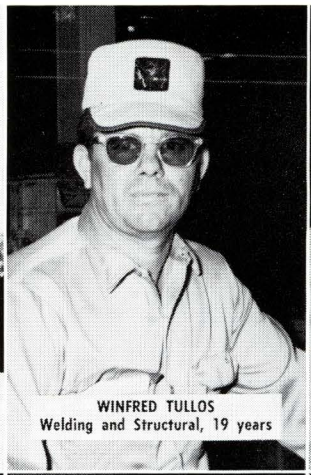

"That was the first year the scholarships were awarded. From then on, I have been determined to win one," he added.

Lufkin Foundry wishes Marie, Janice, Tommy and David, as well as all other students bound for college this fall, the best of luck in their academic pursuits.

Shop Talk

THE GLENN BRIDGES family may have set some kind of record for having the most members of one immediate family employed at Lufkin Foundry.

Glenn, an employee of the Foundry department, first shift, and his four employee-sons bring the total number of employees in that family to five.

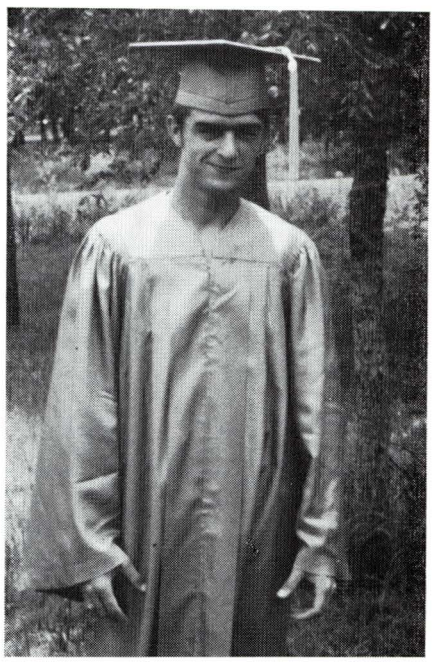

His oldest son, CARLTON works in the Machine Shop, third shift. He was formerly employed in the Industrial Engineering department.

RONNIE, who is a newlywed, also works in the Machine Shop, third shift. This fall Ronnie will continue his studies at Angelina College. He married the former Elizabeth Parker of Hudson on June 6.

A 1969 graduate of Lufkin High School, DON is employed in the Foundry department, first shift. He will enter Angelina College this fall.

The youngest son is GARY, who is employed in the Mill Supplies Division this summer. He will be a senior at LHS in September.

CLETUS RUSSELL, Assembly and Shipping department, first shift, has returned from a two-week visit to Kansas. Cletus and his family visited his wife's parents.

DON BRIDGES . . .
to enter Angelina College

ROBERT THIGPEN, Trailer Division, first shift, was in a car accident on his way to work in June. We are glad to hear that he is back at work and feeling better now.

J. E. LANDRUM is back at work in the Welding and Structural Shop, second shift, following a long illness.

Congratulations to newlyweds Mr. and Mrs. ROBERT POLAND JR. who were married June 21 at the Central Lutheran Church in the bride's hometown of Dallas. She is the former Linda Orth, daughter of Mr. and Mrs. Lawrence H. Orth of Dallas, and his parents are Mr. and Mrs. ROBERT POLAND, SR.

Robert has been employed in the Assembly and Shipping department, first shift, since his May graduation from Stephen F. Austin State University. Linda is finishing her senior year at SFA.

R. G. (PREACHER) GRAY and his wife have returned from a week's vacation in Colorado. Preacher said the trip was strictly a picture taking and sightseeing tour.

He is employed in the Assembly and Shipping department, first shift.

TOM TREADWELL was missed by his fellow employees in the Assembly and Shipping department, where he is foreman, during his stay in the hospital.

J. J. GUNTER, Repair Shop, was the father of the bride when Sally Ann and Troy Dale Edwards were married on June 28 at the First Methodist Church. The bridegroom's parents are Mr. and Mrs. Troy Lee Edwards.

EDWARD FORD has been off from his job in the Trailer Division, first shift, with a sprained ankle.

Mr. and Mrs. TOMMY W. FERGUSON announce the birth of their son who was born June 9. Tommy is employed in the Paint House, second shift.

The former Caren Ann Long and William Russell Lee exchanged vows on May 24 at the First Baptist Church.

Parents of the newlyweds are Mr. and Mrs. Jay A. Long and Mr. and Mrs. AVERY LEE. Avery works in the Machine Shop, first shift.

Deepest sympathy is extended to GUY NERREN, Traffic department, upon upon the death of his wife.

MRS. ROBERT LENWOOD POLAND, JR.

LINDA LONG, Material Control, became the bride of ETN3 William Ruffin Petty on July 19. He has been stationed with the navy in Vallejo, California.

Linda's parents are Rev. and Mrs. Edgar Long of Livingston, and the new bridegroom is the son of Rev. and Mrs. B. M. Petty of Crockett.

We extend sympathy to LAVELLE GLENN, Accounting department, upon the death of her mother.

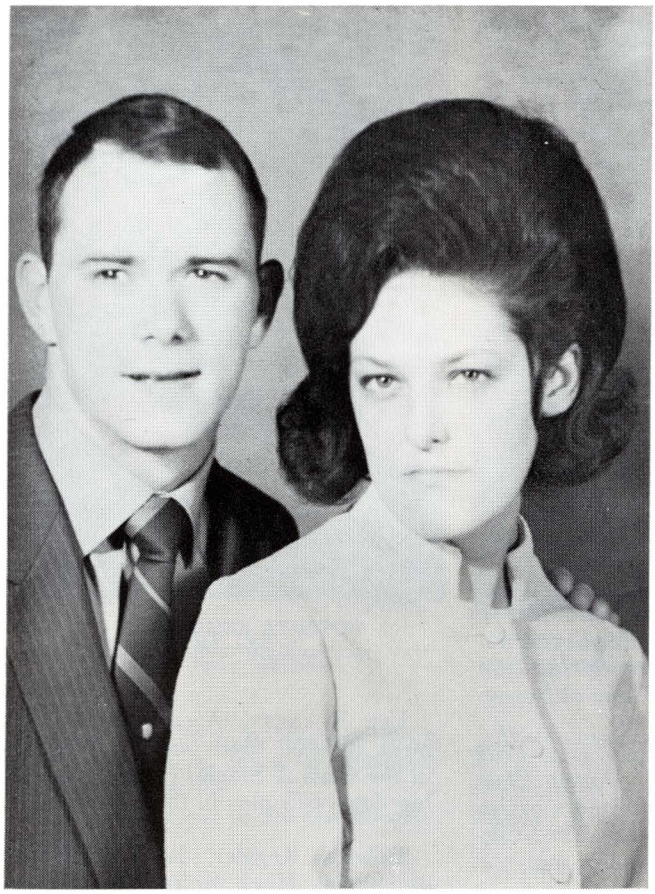

ELLIS JOHNSON, Jig department, first shift, says he is going to take a two-week vacation "just to sit in the shade or under an air-conditioner." If Ellis finds a way to beat the scorching heat this summer, we hope he will share it with us.

On the other hand, RED PULLEN, Maintenance department foreman, was complaining of the cold weather! (during his vacation in Colorado, that is).

Red and his family intended to camp out, but the temperature got down to the low 40's at night, so they abandoned the idea. They visited Carlsbad Caverns in New Mexico and Pike's Peak, Colorado Springs and Estes Park, all in the Rocky Mountain state.

We hope Mrs. B. F. LATHAM is better by now. Her husband, who works in the Tool Room, first shift, took her to the hospital in June.

Copied from an original at The History Center. www.TheHistoryCenterOnline.com 2013:023

Mr. and Mrs. DAVID LYNN RAMSEY

MRS. WILLIAM RUFFIN PETTY

R. B. RICKS was missed by his fellow employees in the Machine Shop, first shift, during his illness.

DAN TULLOS takes a lot of good-natured kidding about his height. The latest joke is that he has been given a set of "Tom Walkers" and, according to his buddy, PREACHER WEEMS, Tool Room foreman, the stilts should make Dan as tall as everyone else.

Dan, an employee of the Lathe Shop, first shift, says he doesn't mind all the kidding. "If people didn't kid me, I would think they were mad at me," he said.

Mr. and Mrs. ELMER SIDNEY BASHAM announce the marriage of their daughter, Sandra Gail, to David Lynn Ramsey, son of Mr. and Mrs. T. P. Ramsey.

The bride's father is employed in the Foundry department, first shift.

Lufkin Foundry is proud of Curtis Mills, Jr., former Dunbar track star, who cracked the world record and beat an Olympic champion with a time of 44.7 seconds in the 440-Yard Dash at the NCAA track meet in Knoxville, Tennessee, where he represented Texas A&M University.

His brothers, Wayne and Marvin, will enter A&M this fall with track scholarships. Father of the athletes is CURTIS MILLS SR., Mill Supplies Division.

Donna Jean Swor will become the bride of GARY KEITH MCCLENDON, Machine Shop, second shift, Aug. 16 at Herty Baptist Church.

Their parents are Mr. and Mrs. T. L. McClendon of Diboll and Mr. and Mrs. Ernest Swor of Lufkin.

Sympathy is extended to W. C. GREEN, Trailer Division, first shift, whose mother died in California in June.

There's a new baby girl in the home of Mr. and Mrs. WALLACE WILSON. Congratulations to the proud father, who works in the Welding and Structural Shop, first shift.

JUDGE HUTSON and his wife spent their vacation in North Carolina in June. He works in the Inspection department, first shift.

Best wishes to NUTZA JOSEPH GIORDANO, JR. and Anita Gayle Childress, who will be married Aug. 8 in the Main Street Baptist Church in Bogalusa, Louisiana.

She is the daughter of Mr. and Mrs. H. M. Childress of Bogalusa, and the bridegroom is office manager of the Trailer Sales office in Jackson, Mississippi.

Deepest sympathy is extended to G. C. STARRETT, Machine Shop, first shift, upon the death of his father.

L. C. BUTLER, Trailer Division, first shift, has been in the hospital recuperating from a slipped disc.

Congratulations to newlyweds Mr. and Mrs. TRUITT DIXON JR. who were married in June. He is employed in the Trailer Division, first shift.

Copied from an original at The History Center. www.TheHistoryCenterOnline.com 2013:023

MRS. JERRY MACK McCLAIN

Best wishes to Judy Shearer and Mike Beck who will be married in August. She is the daughter of Mr. and Mrs. H. T. Shearer of Tyler and his parents are Mr. and Mrs. C. L. Beck of Lufkin.

Mike is attending The University of Texas Dental School in Houston and Judy, a graduate of Tyler Junior College, is a lab technician at a Houston hospital.

The father of the bridegroom-to-be is foreman of the Commercial Gear department, first shift.

The son of John Riley O'Quinn, Gear Cutters, first shift, has completed his army basic training and now is taking an eight-week Army Intelligence Training course at Ft. Bliss.

Pvt. Riley Dean O'Quinn worked in the Lathe Shop prior to his induction.

J. W. Gainer, Machine Shop, first shift, was missed during his stay in the hospital.

V. W. (Rip) Busselle and Coy Oliver caught four catfish weighing a total of 72 pounds at Lake Rayburn. Two of the fish tipped the scales at 11 pounds each and the other two weighed 30 pounds and 20 pounds.

Rip and Coy, brothers-in-law and both first shift employees, work in the Lathe Shop and Trailer Division, respectively.

There's a new baby girl in the home of Mr. and Mrs. William Williams. Sonia Yvette weighed 9 pounds 4 ounces when she was born May 24.

The new father is employed in the Machine Shop, first shift.

John Laird, Material Control Warehouse, first shift, had a stiff neck for a week as a result of an accident he had on his tractor.

While clearing his land, John hit a tree and a falling limb knocked him off the tractor.

We hope John is feeling better by now.

Congratulations to newlyweds Cecilia and Mack McClain who were married June 14 at the First Baptist Church. Parents of the bride are Ben Hooker, Photographic department, and Betty Hooker, Publications department. Mack's parents are Mrs. Ida McClain of Lufkin and T. C. McClain of Nacogdoches.

The new Mrs. McClain is a 1969 graduate of Stephen F. Austin State University where she received a bachelor of arts degree in history. The bridegroom is a senior economics major at SFA.

Greetings to Elvin Burris, Security Guard, first shift, who has been in the hospital recuperating from surgery on his lung. Everyone hopes he is feeling better by now.

Claude Bailey was missed by fellow employees in the Machine Shop, first shift, during his stay in the hospital.

Mrs. Hubert Breazeale, whose husband works in the Tool Room, second shift, underwent surgery in June.

The prize list for the 37th annual tournament of the Texas State Bowling Association, held in Amarillo this spring, names three Lufkin Foundry bowling teammates as winners.

Ronnie Smith, Welding and Structural, first shift, came in 103rd out of 127 entries in the Class D Singles event. His combined score for three games was 502.

Charlie Hamilton and Al Mallonee placed 60th out of 125 entries in Class B Doubles with a combined score for three games of 1120. Charlie is manager of the Trailer Parts department and Al is employed in the Engineering department.

ROBERTA KEGGLER . . .
government major at SFA

Lee Burnett, Accounting department, finished 154th out of 899 entries in the Class A Singles event by knocking down 575 pins in three games.

Roberta Keggler, 1969 graduate of Dunbar High School, will enter Stephen F. Austin State University this fall with a major in government and a minor in art.

She is the daughter of Mr. and Mrs. I. V. Keggler and a sister-in-law of Acy Bluford, Welding and Structural Shop, first shift.

Aug. 9 is the wedding date for Dorothy Lee and her fiance, Jerry Gottshall, son of Mrs. Mike Hansen of Penn Yan, New York. Her parents are Mr. and Mrs. J. T. Lee.

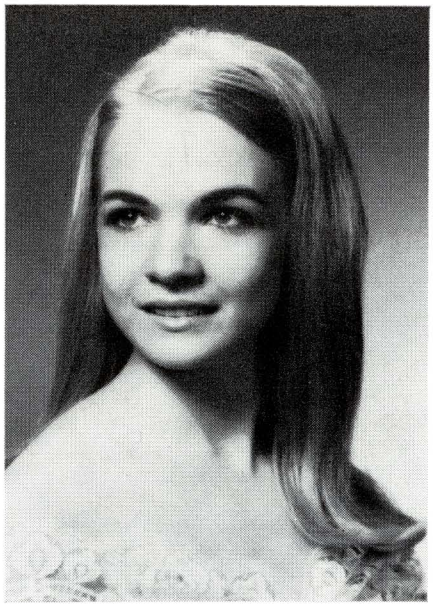

Father of the bride-to-be works in the Trailer Division, first shft.

Employees of the Welding and Structural Shop, first shift, are glad to have Sam Swindle back at work following his illness.

Mr. and Mrs. Smith Malone Jr. announce the birth of their son, Dale, who weighed 7 pounds 6 ounces when he was born June 18. This makes son number three for Smith, who works in the Assembly and Shipping department, first shift.

The Al Mallonees flew from Dallas to Fairbanks, Alaska, in June for a visit with their daughter, son-in-law and baby grandson, who was born in March.

Copied from an original at The History Center. www.TheHistoryCenterOnline.com 2013:023

DOROTHY LEE . . .
to marry Jerry Gottshall

PVT. BOBBY YARBROUGH . . .
stationed in Thailand

Lt. and Mrs. Jerry M. Bate are living in Alaska, where Jerry is stationed with the U. S. Army.

Al is an employee of the Engineering department.

The son of RAY YARBROUGH, Trailer Division, first shift, left July 7 for Army duty in Thailand.

Pvt. E2 Bobby Yarbrough, who attended warrant officers school, has been stationed at Ft. Bliss and Ft. Polk.

BOB BUTLER was in the hospital for tests early this summer. He is a foreman in the Machine Shop, first shift.

Mr. and Mrs. LARRY HIGGINS announce the birth of their first child, Larry Kevin, who weighed 7 pounds 13 ounces when he was born June 7. His father is employed in the Trailer Division, first shift.

JACK CHASTAIN was missed during his illness. He works in the Maintenance department, first shift.

There's a rumor going around that ZACK FENLEY, Pipe House foreman, is going into the hog business.

It seems that Zack and some of his co-workers are running into a little controversy about who got the pick of the litter. LEROY GARNER saved a couple of his hogs for Zack, but JACK BROOKS, who also bought a pair, says he got the best of the lot.

Zack insists there is something special about his hogs. Zack's are albinos.

This whole argument sounds like a bunch of hogwash to us.

Mills Supplies employee HUBERT DORSETT was the father of the bridegroom when David and Ann Keen were married at the First Baptist Church on July 11.

A student at Lufkin High School, the new Mrs. Dorsett is the daughter of Mrs. Walter Keen and the late Mr. Keen. David is a sophomore pre-med major at Stephen F. Austin State University.

JOHN COPELAND, Trailer Division employee, took a 2000-mile trip to Missoula, Montana, to see his daughter and son-in-law, Mr. and Mrs. Bobby Walker. Bobby is a former employee of the Pattern Shop. He now is supervisor of a woodworking shop which makes portable sewing machine cabinets and typewriter desks.

The Walkers have three children, ages 7, 9 and 11, and John and his wife have not seen the family in more than a year.

Another daughter and son-in-law, Dr. and Mrs. Mike Hughes, and their three children, all of Corpus Christi, accompanied the Copelands.

Members of the JOE BYRD family were scattered all around the world early this summer with Susan touring Europe, Joe IV stationed with the Navy in Taiwan, Bill working for Cutler Hammer in Denver and their parents visiting points in East Asia. Joe is director of Research and Development.

Susan flew from Dallas to London where she joined relatives for a tour of France and Switzerland. The Byrds were elated one Sunday in June when she surprised them with a Trans-Atlantic phone call from Eastbourne, England, where she is spending the remainder of the summer.

One of the highlights of Susan's trip was attending the famous Wimbledon Tennis Tournament.

Son Joe, a Lt. j.g. aboard the USS Delta in the West Pacific, surprised his parents at the airport in Taipeh, Taiwan. They enjoyed 2½ days with him, their first visit in almost a year.

The Byrds had been attending the International Rotary Convention in Honolulu, Hawaii, and, afterwards, flew to Japan, Taiwan, Hong Kong and the Philippines with an American Express tour.

Joe said overnight accommodations throughout the tour were excellent, adding that two of the hotels in which they stayed, the Grand Hotel in Taipeh and the Mandarin Hotel in Hong Kong, were rated among the world's ten finest hotels in Fortune Magazine's latest list.

The Byrds returned with more than 800 slides of their trip.

The former Tamesha Ann Jumper and Keith Sinclair Perry honeymooned in Nassau after their wedding May 25. The newlyweds are attending SFA this summer.

She is the daughter of Mr. and Mrs. A. J. JUMPER, and his parents are Mr. and Mrs. Glenn Perry. A. J. works in the Machine Shop, first shift.

The following note appeared on a bulletin board in the Gear Cutters department in June, "Dear Joe, If hickory wood were $5 per cord, how much would two arm loads be? Yours truly, the Hell's Angels."

An investigation proved that the note was addressed to JOE JACKSON, Gear Cutters, second shift, who ran his truck into a stump while he was hauling hickory wood for a July 4 barbecue.

Lufkin Foundry's growth in 1968 has caught the attention of Gov. Preston Smith's Conference on Industrial Expansion, which annually awards citations to the state's fastest growing industries.

Signed by the governor, a certificate was presented to President Bob Poland May 7 at the Governor's Conference on Industrial Expansion in Austin.

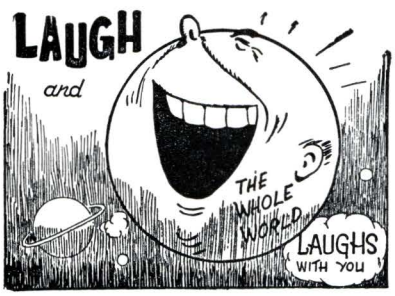

It reads, "Governor's Industrial Expansion Citation is awarded to Lufkin Foundry and Machine Company in recognition of a significant contribution to the industrial expansion of the State of Texas for the year 1968."

"Are you the man who sold me this car about two weeks ago?"

Salesman: "Why, yes sir, I am."

"Well, will you please tell me about it again? I get so discouraged."

Did you hear about the midget who escaped from Czechoslovakia after the Russian invasion last summer? He has been seen in many places throughout Europe, begging piteously, "Could you please cache a small Czech?"

Gunman at the paymaster's window of a large plant: "Never mind the payroll, Bud, just hand over the welfare fund, the group insurance premiums, the pension fund and the withholding taxes."

Suggestion boxes are great. One boss, reading from the suggestion box in his plant, said, "I wish employees would be specific. What kind of kite? What lake?"

Overheard on a tour of George Washington's home at Mount Vernon: "Darling, did you notice everything's furnished in Early American?"

Once upon a time a lion ate a bull. He felt so good he roared loudly. A hunter heard him and killed him with one shot. Moral: when you are full of bull, keep your mouth shut.

The bank robber shoved a note to the teller which read: "Put all the money in a bag, stupid, and keep quiet."

The teller scribbled a note and pushed it back to the thief, which read: "Straighten your tie, idiot, we're taking your picture."

They were anxious not to be recognized as newlyweds, so before they went into the hotel, the bride took off her corsage and they carefully shook off the last bits of rice.

Then, sure that no one would ever suspect they had just been married that afternoon, the new bridegroom ambled up to the desk and said with studied casualness, "I'd like a double bed with a room please."

"Is your advertising getting any results?"

"Sure is. Last week we advertised for a night watchman and the next day we were robbed."

At the peak of the cold and virus season last winter, one family doctor was giving a record number of penicillin injections. Tacked to the door of his inner office was this notice, "To Save Time, Please Back Into Office."

The Sunday School teacher was horrified when she saw the picture one of her pupils had drawn.

"Why, it looks like a cowboy walking into a saloon!" she said.

"It is," said the child. "But it's all right. He's not going to drink anything; he's just going to shoot a man."

The trouble is that the car of tomorrow is being driven on the highway of yesterday by the driver of today.

Her husband was an extreme hypochondriac, and she had just about reached the end of her patience. Then she decided to pretend to be ill herself, hoping he might be so concerned about her that he'd forget his own ailments.

One evening she greeted him with a recital of how miserable she felt. He was unusually quiet during dinner and she thought perhaps her ruse was working. But she was soon disillusioned.

"I don't know what's wrong with me," he groaned. "I think I must be coming down with what you've got."

Small boy, showing teacher's report card to his father: "Well, they're not paying her enough, for one thing!"

On viewing the ocean for the first time, the little boy exclaimed, "Look, Mother, it just keeps flushing and flushing."

Platonic friendship: the interval between the introduction and the first kiss.

The lawyer was summoned to the bedside of an octogenarian who had only a few days to live and wanted to make his will.

"To my son Jim, in fatherly love," the old man began, "I bequeath $10,000. To my son John the same, and to each of my eight grandchildren, $1,000 . . ."

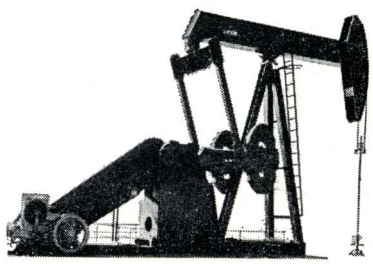

The lawyer interrupted. "Hold on there, Mr. Roberts," he said. "Your estate isn't worth more than $3000—just how do you suppose these beneficaries are going to get the money?"

Mr. Roberts reared up indignantly on his bed. "Git it?" he shouted. "Let 'em work for it, same as I had to do!"

When a man declares, "I am sure of my wife," it means he is sure of his wife. But when a woman declares, "I am sure of my husband," it means she is sure of herself.

Two matronly ladies to travel agent: "We'd like to get completely away from civilization, near some nice shopping district."
