THE MARTIN WAGON COMPANY — Lufkin, Texas

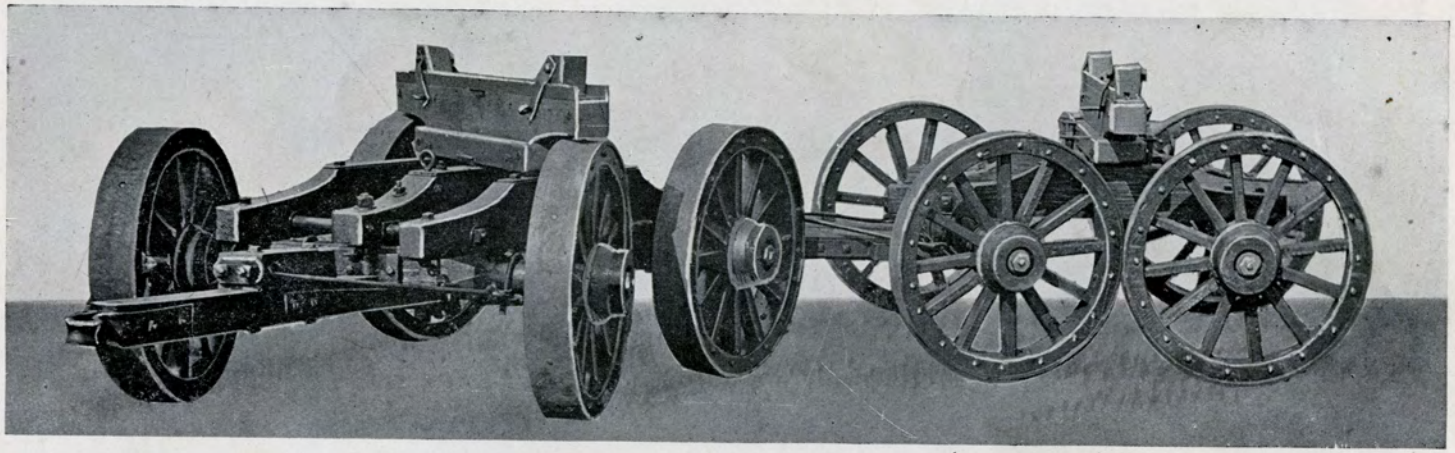

A VERY COMMON SCENE IN THE OIL FIELDS. TEAM HAULING ONE OF THE HEAVY BOILERS ON A MARTIN EIGHT-WHEEL WAGON

WE MANUFACTURE WAGONS for all kinds of heavy hauling and we make a size and type that will meet the requirements of any particular operation, either in the logging woods, saw mill, lumber yard or in the oil fields.

We use only the best of material and workmanship, striving always to live up to our policy of furnishing the very best equipment to be had and at prices consistent with such equipment.

We keep in close touch at all times with the problems of operators under all kinds of conditions and will appreciate your inquiries and will be glad to serve you in any way at any time.

The Martin Flexible Eight-Wheel Trailer or Tractor Wagon

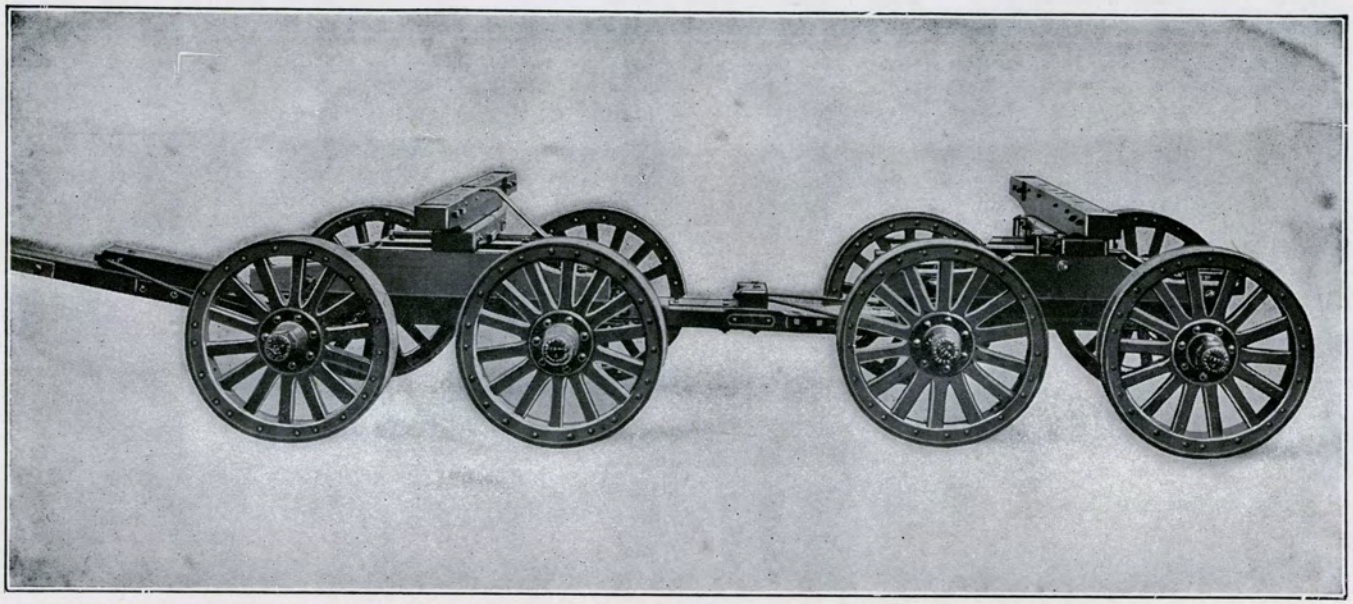

The same working principle of our Eight-Wheel Wagon for teams is retained in our Eight-Wheel Trailer or Tractor Wagon—that of tracking, turning easily and running light. Driver can make close turns without difficulty as wagons track closely behind each other. We have studied the tractor service very closely and have designed this wagon especially to stand this service. Only the best of material and workmanship is used in construction so they will stand the heaviest service in any kind of territory.

Size 3½ x 10″ Steel Skeins, 36″ or 40″ Wheels ⅝ x 6″ Tires $350.00 Wgt. 3250 Cap. 10 Tons
Size 4 x 12″ Steel Skeins, 36″ or 40″ Wheels ⅝ x 6″ Tires $400.00 Wgt. 3500 Cap. 15 Tons

Other Sizes Made to Order

All of above prices are F. O. B. cars LUFKIN, TEXAS, and subject to change without notice.

The Martin Special Eight-Wheel High-Speed Flexible Wagon

Made with the Martin Floating Bearing Axles which permits the wagon to run for hundreds of miles at high speed without renewing grease.

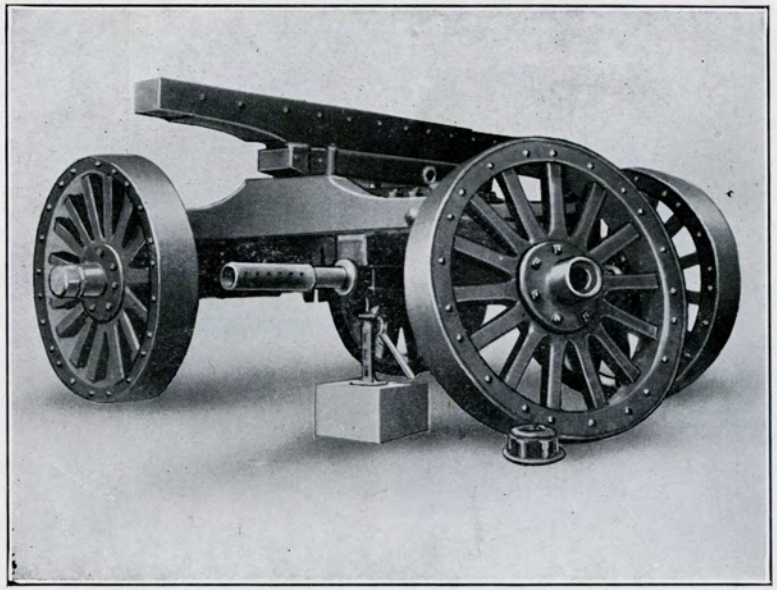

This wagon differs from our regular Eight-Wheel Tractor Trailer only in the special high speed hubs and axles—is heavily re-inforced and braced throughout and is the most practical and economical heavy service wagon on the market.

Size 2½" Steel Axles 36" or 40" diameter wheels with ⅝ x 6" tires.....$775.00

Weight 4200 lbs., Capacity 15 tons

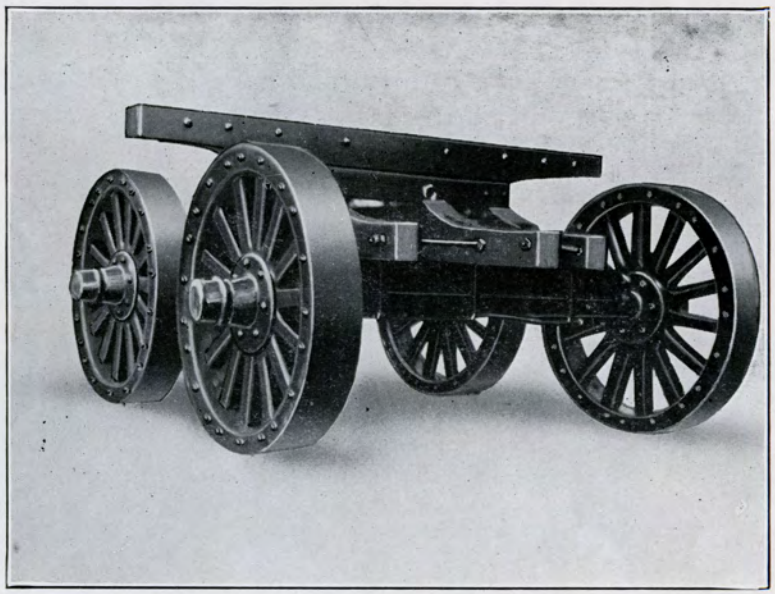

All of above prices are F. O. B. cars LUFKIN, TEXAS, and subject to change without notice.

Showing the Martin Special Floating High-Speed Bearing

This consists of a bronze bushing which floats between the hub and spindle. This bushing, as can be seen from cut, has holes which let grease through to spindle at all times. A felt washer at shoulder and hub cap at point of bearing prevents grease from getting out so there is no chance for bearing to run hot or dry.

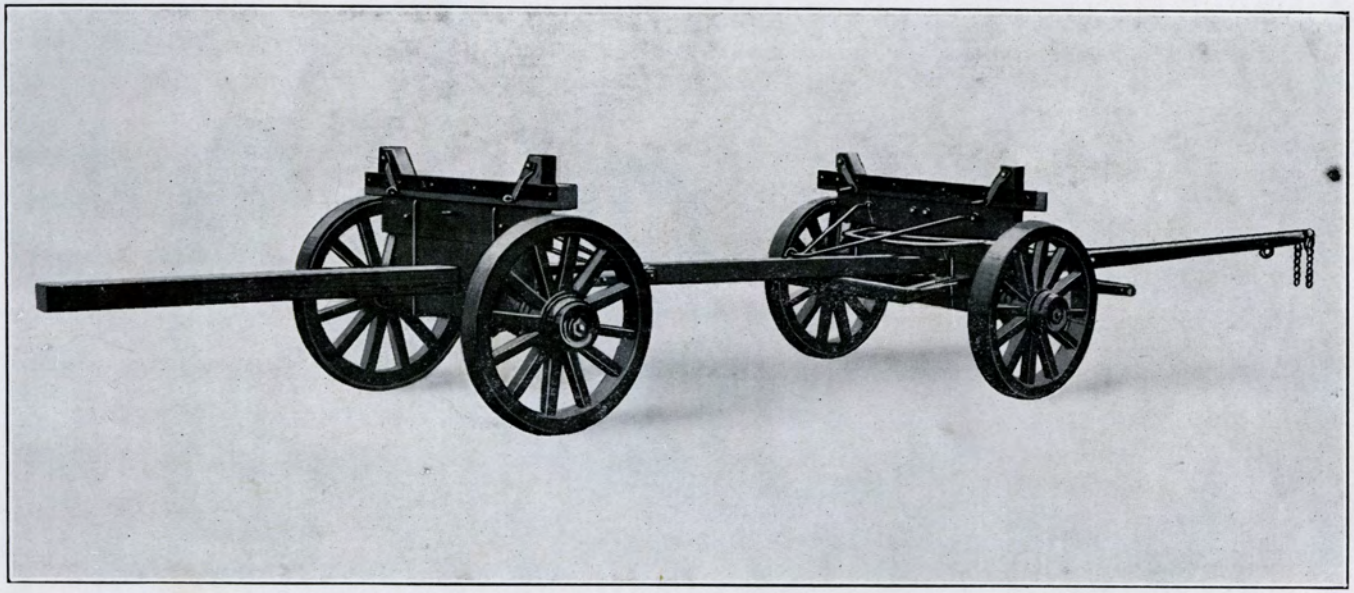

Rear View Showing Substantial Construction

Built to insure the maximum of strength and durability in every detail without any surplus of weight. Bolsters are re-inforced with steel plates riveted on sides and have loops or pockets at ends for standards.

All of above prices are F. O. B. cars LUFKIN, TEXAS, and subject to change without notice.
