The Pineland Star

DEDICATED TO THE PROGRESS OF PINELAND AND SURROUNDING COMMU NITIES

VOLUME ONE, NUMBER 17 | THE PINELAND STAR, PINELAND, TEXAS, THURSDAY, AUGUST 14, 1958 | $2.00 PER YEAR

Market News from Southern Pine

Orders for SP Supreme Oak Yellow Pine were good during the week of August 4. Orders booked were approximately 1,100,000 feet and we were able to obtain a price increase of one to two dollars per thousand on common lumber.

Orders fr SP Supreme Oak flooring were good. Orders booked totaled 900,000 feet and there was a price increase of three and five dollars per thousand feet on number two and number one common respectively.

Templetreat sales were not as good as we would have liked. Orders received were sufficient to keep us operating on a full time basis. Prices continue weak and competion continues very keen.

Hardwood lumber continues to move in good volume. Prices are firm and generally speaking this market is very good.

Ed Price
Asst. General Sales Manager

Temple seats sales are up this week. Much stronger than last week.

Don H. Burnley
Asst. General Sales Manager

The demand for furniture dimensions stock has improved slightly since the summer furniture markets. While prices are still very competitive, we have a normal order file and do not anticipate any changes in your production schedule for the immediate future.

SPOKEN WORDS HAVE A WAY OF BECOMING DISTORTED

If you've ever tried to track down a rumor, or unscramble a piece of gossip, you know how elusive is the spoken word! Or maybe you've noticed that you can't quite recall that funny quip by your favorite radio or TV comedian, yet you have no trouble quoting a joke you've read. It's a natural thing with all of us. That's why newspaper advertising gets such good results. It's there to read — in black and white (color too if you want it) and to refer back to, at your leisure.

To be sure your advertising message is remembered . . . . correctly . . . . PUT IT IN PRINT IN YOUR HOMETOWN NEWSPAPER!

THE McGEE BEND DAM "ISSUE"

By Frank Carpenter

McGee Bend Dam is a Federal project that is being built on the Angelina River above Jasper. All funds for the project are appropriated by Congress in Washington and construction is under the supervision of the U. S. Corps of Engineers. The State of Texas has no jurisdiction over the kind of dam that is being built and does not appropriate any money for the project.

There is nothing that the State, the State Senate or any State Senator can do in Austin to expedite, build, or change the type or size of, the dam.

Disregarding these facts completely my opponent in the run-off for State Senator from the Third Senatorial District has based his campaign almost completely on a claim that he is for McGee Bend Dam and will expedite the project in the State Senate. He has run political ads on the subject which stated "A vote for Martin Dies, Jr., is a vote for McGee Bend Dam."

He should know, or I assume that his father could tell him if he would, that the State Senate has no power whatever to build or expedite McGee Bend Dam.

Knowing that M. Dies, Sr., has been in a position, as a member of Congress, to expedite McGee Bend Dam, but has not chosen to do so (in fact he has opposed it in hearings held in Jasper and elsewhere), my opponent may have felt that it was a political necessity for him to try to get on the McGee Bend Dam bandwagon if he was to have any chance of being elected State Senator. He announced for the office in February, but it was June before he assumed a position as a champion of McGee Bend Dam.

He then announced that he was for the project and that he was the first candidate for the office of State Senator to endorse the dam (actually he was the third candidate in the race to so announce) and he has campaigned on the "issue" ever since. With reference to the Dies' claim to expedite construction of McGee Bend Dam let us consider the negative contribution of Congressman Dies to the project in the past and during the present session of Congress. There was a recent vote in Congress on an attempt to remove the power feature from the project and another vote on the adoption of an appropriation bill that contained an allotment of $4,500,000 for further construction work on the dam. Congressman Dies did not testify for the bill in committee, neither did he file any letter, telegram or any other communication in support of the project.

When the measure came to a vote on the floor of the House Congressman Dies was strangely silent. Page 10,647 of the current Congressional Record lists him as one of the 51 members who were "absent" when the vote was taken. If he was truly interested in McGee Bend Dam, why did he not support it when it was on trial and fighting for survival in Congress, where he is a member, and which is the only place it can be expedited? Instead of being in Washington fighting for McGee Bend Dam, he was in Lufkin, where his son was running for State Senator on a pro-McGee Bend Dam platform. If Congressman Dies will not support the project in Congress, where it is an issue, what can you reasonably expect his son to do in the State Senate, where it is not an issue?

This is but one of many such actions of my opponent, his family and coworkers, in this race. Do you want to reward such conduct with election to one of the highest offices in this State?

My own record on McGee Bend Dam and water conservation is crystal clear. I sponsored and passed in the House of Representatives two of the eight statewide water bills recommended by the statewide water conservation committee in the 1953 session of the Legislature and have always supported a statewide water program. In my original announcement for the office of State Senator on April 10th, I stated **"A firm believer in a master water conservation plan for each major watershed in the state, Frank Carpenter is in favor of dams to conserve water as far upstream as economically feasible. He favors construction of McGee Bend Dam and all other dams that would have sufficient economic value." That is still my position and I have not tried to make a phony issue out of it.**

Vote for Sincerity and Honesty in your public officials. Vote for Frank Carpenter for State Senator, the only candidate with legislative experience and a proven record of accomplishment and fair dealing to all in community service and public office.

PINELAND, TEXAS

AN APPEAL FOR FAIRNESS

East Texans are noted for their sense of fair play. It is taught in our homes. churches and schools. It ought to be taught and practiced in politics. During the First Primary it will be remembered that I appealed for and made a clean campaign based upon issues and free from mud-slinging and slander. Neither by word or deed did I say or do any thing which reflected upon the character or motives of my opponents or their loved ones. It is bad enough to slander the candidate, but I never dreamed that anyone would stoop so low as to slander the candidate's father.

I regret to report that unsigned, anonymous and mimeographed letters are being mailed to people in this District which attack my father's record in Congress and accuse him of seeking my election to the State Senate in order to "send his influence to Austin". This is a very cruel and malicious thing to say of any father. Only a very evil person could believe or charge that any father would seek the success of his own son for selfish purposes. Those of you who know my father know that he would be the last person to want or seek any gain or advantage from my election to the State Senate. My father announced last May that he was retiring from public life to spend his old age with his loved ones and friends in East Texas. He has properly taken no part in this race. As a matter of fact he has been ill for the past several months and largely confined to his bed or room.

My father's record in Congress or as a citizen are not issues and have no place in this campaign. It is my record and views which are involved in this race, not my father's. This, and any other attempt to inject my father in this campaign will be, and ought to be, deeply resented by the fair-minded people of this district.

The cowardly author or authors of this unsigned mimeographed letter do not fear that I will be used by my father or anyone else. What they really fear is that they know that I cannot, and will not, be used by certain special interests and that I will not "line-up". They know that I am determined to work for the early completion of the Big Dam at McGee Bend so that new industries and hundreds of thousands of tourists will be attracted to this area and thousands of our people will be furnished employment at good wages. They know that I am determined to do everything within my power to promote the progress and development of East Texas so that we will move forward instead of backward. As it is, from 1940 to 1950 our Senatorial District has lost population while the rest of Texas has gained it. They know that I am not satisfied with things as they are in East Texas and that I am, and will remain after the election, on the side of progress and prosperity for all. It is because they know these facts that they do not want me in the State Senate and are prepared to stoop to any trick, however unfair or mean, to prevent my election.

Since I am running on my own money earned in the court house trying cases, and do not have any paid workers, I cannot track down and expose the rumors and slanders that may flood this district before August 23rd in the apparently desperate attempt to overturn the high plurality of 18,578 to 9,822 which I received in the First Primary over my opponent in this race.

My only recourse, therefore, is to appeal for fair play and decency. The people must not allow this important office to be won by money or slander. I am prepared and anxious to meet any pertinent issue or charge publicly made by my opponent or any citizen of this district. I can not be expected to meet and answer character assassins and scandal mongers who hide under the cloak of anonymity and stab in the back.

Gratefully yours,

MARTIN DIES, JR.,

Candidate for State Senator
