Name Index to the County Judges School Record, 1885-1886

This name index was created by History Center staff to allow for better searching of names within the record book. It is not a part of the original document. The page numbers below correspond to the page numbers in the PDF document, not the unnumbered pages of the original record book. The index focuses on the names of school trustees and teachers listed in the second half of the volume, not the county judge orders establishing the school communities found in the first half.
